## Goodreads Choice In The Us:

**They Called Us Exceptional** Prachi Gupta, 2024-08-20 In this vulnerable and courageous memoir Prachi Gupta takes the myth of the exceptional Indian American family to task The Washington Post I read it in one sitting Wow It aims right at the tender spot where racism sexism and family dynamics collide and somehow manages to be both searingly honest and deeply compassionate Celeste Ng New York Times bestselling author of Little Fires Everywhere A SHE READS BEST BOOK OF THE YEAR ONE OF THE BEST BOOKS OF THE SEASON The New York Times The Washington Post The Boston Globe Bustle How do we understand ourselves when the story about who we are supposed to be is stronger than our sense of self What do we stand to gain and lose by taking control of our narrative Family defined the cultural identity of Prachi and her brother Yush connecting them to a larger Indian American community amid white suburbia But their belonging was predicated on a powerful myth the idea that Asian Americans and Indian Americans in particular have perfected the alchemy of middle class life raising tight knit high achieving families that are immune to hardship Molding oneself to fit this image often comes at a steep but hidden cost In *They Called Us Exceptional* Gupta articulates the dissonance shame and isolation of being upheld as an American success story while privately navigating traumas the world says do not exist Gupta addresses her story to her mother braiding a deeply vulnerable personal narrative with history postcolonial theory and research on mental health to show how she slowly made sense of her reality and freed herself from the pervasive reductive myth that had once defined her But tragically the act that liberated Gupta was also the act that distanced her from those she loved most By charting her family's slow unraveling and her determination to break the cycle Gupta shows how traditional notions of success keep us disconnected from ourselves and one another and passionately argues why we must orient ourselves toward compassion over belonging

*Mediation and Multimodal Meaning Making in Digital Environments* Ilaria

Moschini, Maria Grazia Sindoni, 2021-11-15 This collection explores the mediation of a wide range of processes, texts, and practices in contemporary digital environments through the lens of a multimodal theory of communication. Bringing together contributions from renowned scholars in the field, the book builds on the notion that any form of digital communication inherently presents a rich combination of different semiotic modes and resources as a jumping off point from which to critically reflect on digital mediation from three different perspectives. The first section looks at social and semiotic practices and the implications of their mediation on artistic production, cultural heritage, and commerce. The second part of the volume focuses on dynamics of awareness, cognition, and identity formation in participants to digitally mediated communicative processes. The book's final section considers the impact of mediation on shaping new and different types of textualities and genres in digital spaces. The book will be of particular interest to scholars, researchers, and students in multimodality, digital communication, social semiotics, and media studies.

**Literature's Social Lives** Günter Leypoldt, 2025 This book draws from literary sociology to look at literature in a longue durée from Romantic poetry to the Toni Morrison novel. It proposes a new value theory and sketches an institutional history of US and Anglophone literary culture from 1800 to the present. Its bifocal institutional and value theoretical lens offers a fresh look at literary production, explaining the tension of vocation and trade regimes since 1800, the relevance of subsidies to authors of high literary ambition, the network dependency of avant-gardes, and identity groups, the institutional prerequisites of world literary iconicity, and the diversification and ranking of reading cultures.

Literature and Social Media Bronwen Thomas, 2020-01-31 From Instapoetry to BookTube, contemporary literary cultures and practices are increasingly intertwined with social media. In this lively and wide-ranging study, Bronwen Thomas explores how social media provides new ways of connecting with and rediscovering established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression. The book takes a 360-degree approach to the subject, combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced, shared, and circulated. The first study of its kind to focus specifically on social media, Literature and Social Media provides a timely and engaging account of the state of the art while interrogating the rhetoric that so often accompanies discussion of the new in this context.
