Pumpkin Spice This Week Customer Service:

What Customers Crave Nicholas Webb,2016-10-12 Think you know your customers You better be more assured than just thinking you do because your success depends on it The best companies in the world first research exhaustively what their customers desire and then they deliver it in memorable and deeply human experiences resulting in success previously believed to be unachievable So once again how well do you know your customers In a hyperconnected economy that is radically changing consumer expectations this vital expectation for any successful business is not always easy But in **What Customers Crave** author and business strategist Nicholas Webb simplifies this critical task into being able to confidently answer two questions What do your customers love What do they hate Jam packed with tools and examples this must have resource helps businesses reinvent how they engage with customers both physical and virtual Learn how to Gain invaluable insights into who your customers are and what they care about Use listening posts and Contact Point Innovation to refine customer types Engineer experiences for each micromarket that are not only exceptional but insanely relevant Connect across the five most important touchpoints Co create with your customers And more It s time to reinvent the ways you engage with your customers Because when you learn to provide for them exactly what they want they not only bring along their wallets but those belong to their friends as well

Stitched Together Bob Thompson,2019-10-15 When Bob Thompson asked his granny years ago why she continued to create so many of her beautiful quilts she said it was the only way she could reach across time touching and giving her descendants her energy And just like his granny Thompson s gift of storytelling provides a reverence and buoyancy all its own This collection combines personal and family experiences to create a patchwork quilt of gripping stories with the comfort of memory Thompson draws on his mother s seventy years of diaries handwritten notes and recipe cards to reveal that every story no matter how small has some wisdom to impart He describes how as a child he would pass his days on the front porch of his granny s country store in western Kentucky and listen to regulars swap stories and spin yarns which cemented his passion for storytelling His granny s methods of quilting provide an interesting perspective on life She never hurried her stitches were small and even Fascinated with numbers I counted as many as eight hundred per square and did the math sixteen thousand for a twin bed sized quilt When I mentioned that some of Great Grandmother Brim s quilts had stitches so large that you could get your big toe caught in them Granny smiled and said It s not the size of the stitches that count it s the spaces between them Thompson s poignant narratives of community friends and family impart the significance of the quiet moments and meaningful spaces between everyday events In doing so they demonstrate that there is something to be gained from every human experience [Social Marketing Digital Book Set](#)
