YouTube: An Insider's Guide to Climbing the Charts Alan Lastufka, Michael W. Dean, 2008-11-19 Want to make a splash on YouTube? Even go viral? You've come to the right place. This book is written by two veteran Tubers who live their art and know what they're talking about, especially Alan Lastufka, aka fallofautumndistro, who has over 13,000 YouTube subscribers and over 4 million views. Alan and co-author Michael W. Dean show you how to make a quality video and how to optimize, encode, upload, and promote it. This book can't promise you'll be rich and famous, but it can tell you how to make great video art and what you need to do to get your work seen. You'll learn about storytelling and directing, shooting, editing, and rendering; creating your very own channel; broadcasting user-generated content; re-broadcasting commercial content; cultivating a devoted audience; fitting into the YouTube community; becoming a success story. Join Alan, who makes part of his living from YouTube, and Michael, a successful filmmaker, author, and D.I.Y. art pioneer. They'll take you from the basics of gear to making it big on YouTube, with a focus on networking and interaction. You'll also sit in on informative interviews with YouTube stars Lisa Nova, Hank Green, vlogbrothers, WhatTheBuckShow, nalts, and LiamKylesullivan. Alan and Michael understand viral marketing, and they know what it takes to get your work on everyone's YouTube radar. And once you read this book, so will you.

The Politics of Social Media Manipulation Richard Rogers, Sabine Niederer, 2025-10-01 Disinformation and so-called fake news are contemporary phenomena with rich histories. Disinformation, or the willful introduction of false information for the purposes of causing harm, recalls infamous foreign interference operations in national media systems. Outcries over fake news or dubious stories with the trappings of news have coincided with the introduction of new media technologies that disrupt the publication, distribution, and consumption of news from the so-called rumour-mongering broadsheets centuries ago to the blogosphere recently. Designating a news organization as fake or der Lügenpresse has a darker history associated with authoritarian regimes or populist bombast, diminishing the reputation of elite media and the value of inconvenient truths. In a series of empirical studies using digital methods and data journalism, the authors inquire into the extent to which social media have enabled the penetration of foreign disinformation operations, the widespread publication and spread of dubious content, as well as extreme commentators with considerable followings attacking mainstream media as fake.
