Stem Kits How To Returns:

National Educators Workshop, Update 2001 ,2002 *Rules of the Road for Nonprofit Leaders* Elizabeth M. Schmidt,2025 The United States has the most robust nonprofit sector in the world It is guided by rules that have enabled countless nonprofits to achieve their missions These rules have also helped shape the sector into a remarkable expression of the disparate and collective aspirations that Americans hold both for their communities and the planet However the rules governing nonprofits are confusing for anyone who is not trained as a lawyer They are written in negative and convoluted language that stresses what is forbidden and they tend to paralyze those who are trying to change the status quo Nonprofit leaders need and deserve clear rules and regulations that tell them what they can and should do to achieve their missions A reframing of these rules does more than explain however Once we look at nonprofit rules from a different lens we can think more clearly about how these laws can be more responsive to the changing needs of the nonprofit sector and of our society

Audio Recorders to Zucchini Seeds Mark Robison,Lindley Shedd,2017-05-30 This exploration of the range of options for a library of things collection demonstrates what has been implemented successfully and offers practical insights regarding these nontraditional projects from the development of concepts to the everyday realities of maintaining these collections What services libraries provide and how they function in their communities is constantly being reconsidered and redefined One example of this is the trend of experimenting with building circulating collections of nonliterary things such as tools seeds cooking equipment bicycles household machinery and educational materials by drawing on traditional library functions and strengths of acquisition organization and circulation **Audio Recorders to Zucchini Seeds Building a Library of Things** enables you to consider the feasibility of creating a specific type of thing collection in your library and get practical advice about the processes necessary to successfully launch and maintain it from planning and funding to circulation promotion and upkeep This contributed volume provides a survey of library of things projects within the United States from both public and academic libraries offering real world lessons learned from these early experiments with nontraditional collections The authors offer practical insights from their projects from the development of their initial ideas to the everyday realities of maintaining and circulating these collections including cataloging space needs safety concerns staff training circulation marketing and assessment The contributed chapters are organized thematically covering things collections that encompass a wide variety of objects first followed by collections with a community building focus seeds recreation tools and those that serve an educational purpose such as curriculum centers children s toys or collections that support a university curriculum The last section addresses collections that support media production

Rural STEM Education Research: Bridging between Uniqueness and Universality Guan Saw,Angela Starrett,Audrey Meador ,Hobart Harmon,2026-01-23 The opposition between uniqueness and universality in rural science technology engineering mathematics and medicine STEM education research is an enduring feature of the field Theories and methods developed to be universally applicable

are constantly adopted or reimaged in studying and understanding certain unique STEM education phenomena or issues within and across rural contexts partly due to the vastness and variety that exists in what is labeled as rural and or STEM education Research ideas and findings focused on a unique rural population or setting often can have universal implications for other rural and non rural populations or settings though not explicitly articulated in many publications Striving to be both unique and universal is a fundamental challenge yet has the potential to advance knowledge and practice in the field of rural STEM education The overall goal of this Research Topic is to introduce and explore the ideas of rural focused and rural reimaged approaches in potentially bridging the gaps between uniqueness and universality in STEM education research Rural focused theories and constructs e g place based education rural identity are centered around populations and issues in rural settings whereas rural reimaged theories and constructs e g urban rural spatial inequality social capital expectancy value beliefs are traditional theories and constructs that are reconceptualized to include rural perspectives in the studies This Research Topic seeks articles that examine both the uniqueness and universality of rural STEM education and educational research utilizing rural focused and or rural reimaged lens or approaches We particularly welcome articles that address unique assets challenges needs opportunities and or lessons learned of rural STEM education while being situated in a broader research discipline as well as articles that explore the commonalities and connections across study cases policies programs practices or contexts of rural STEM education This Research Topic invites theoretical methodological and empirical contributions addressing but not limiting to the following key topics Rural focused topics Defining rurality in STEM education Defining STEM in rural areas Place based STEM teaching learning etc Rural STEM identity belonging etc STEM education in rural serving postsecondary institutions STEM education for local workforce development Rural reimaged topics Urban rural spatial inequality in rural STEM education Community cultural wealth in rural STEM education STEM funds of knowledge of rural learners Underrepresentation of rural students in STEM education Intersectionality in rural STEM education Critical policy analysis in rural STEM education Communities of practice in rural STEM education Research practice partnerships for rural STEM education Articles need to define rurality for interpretation by international readers and describe the uniqueness and universality of the research topics theories methods findings and or implications in the context of rural STEM education
