Dennis,2015-02-25 If you are new to the Raspberry Pi the Arduino or home automation and wish to develop some amazing projects using these tools then this book is for you Any experience in using the Raspberry Pi would be an added advantage

Supportive Smart Homes Frank Knoefel,Bruce Wallace,Neil Thomas,Heidi Sveistrup,Rafik Goubran,Christine L. Laurin,2023-09-23 Significant health industry human resource needs increase the reliance on family and friends to support older adults hoping to age in place This book explores how recent improvements in integrated home technologies have the potential to address those challenges The book considers how embedded home sensors can be used to monitor the health and wellbeing of older adults and how that can be used to assist with supporting safety and well being The content is designed to help multiple stakeholders in the supportive smart home space to better understand the complexity of this field and the need for transdisciplinary collaboration These stakeholders include the older adults who will benefit from supportive smart home technology informal and formal caregiver and healthcare professionals concerned about the older adult s well being researchers from multiple disciplines in the supportive smart home area and their funders companies looking to develop solutions and services or expand their offerings policy makers who want to ensure privacy and equity in access and a successful integration of these technologies into the evolving health and social services sectors and students the future leaders in AgeTech Overall the intent of the book is to inspire engineers computer scientists industrial designers clinicians and healthcare providers social scientists students policy makers and older adults and their caregivers to collaborate in advancing the supportive smart home space to develop more options for aging in place

Smart Homes Health Sophie Carter,AI,2025-02-21 Smart Homes Health explores how technology can transform our homes into healthier and safer environments It highlights the potential of smart home devices to monitor and improve indoor air quality enhance home safety and promote overall well being Did you know that smart ventilation systems can automatically adjust airflow to reduce indoor pollutants and that smart security systems can detect hazards like carbon monoxide leaks This book emphasizes a proactive approach to health empowering readers to manage their living spaces for optimal health The book progresses from explaining the science behind indoor air quality to detailing the capabilities of smart home devices and their impact on well being It examines how smart home technology intersects with public health engineering and even psychology By offering a holistic perspective Smart Homes Health differentiates itself offering a balanced view of the benefits and limitations of creating intelligent responsive living environments It provides practical advice on implementing and managing these technologies considering cost effectiveness and long term usability

Software Engineering Perspectives in Intelligent Systems Radek Silhavy,Petr Silhavy,Zdenka Prokopova,2020-12-15 This book constitutes the refereed proceedings of the 4th Computational Methods in Systems and Software 2020 CoMeSySo 2020 proceedings Software engineering computer science and artificial intelligence are crucial topics for the research within an

intelligent systems problem domain The CoMeSySo 2020 conference is breaking the barriers being held online CoMeSySo 2020 intends to provide an international forum for the discussion of the latest high quality research results

The Connected Home: The Future of Domestic Life Richard Harper, 2012-01-11 The title of this new book *The Connected Home* reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the concept of a smart home into that of the connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area

Smart Home Automation with IoT Dipankar Saha, 2024-06-26 Enable smart homes with IoT open source technologies

KEY FEATURES Learn to make your home smarter with IoT and AI at a very low cost Live examples along with code and circuit samples which you can readily use Learn scenario based AI based home automation techniques

DESCRIPTION This practical guide *Smart Home Automation with IoT* shows you how to create a smart home without breaking the bank Instead of relying on expensive closed systems you utilize the power of the Internet of Things IoT with open source software to design a custom smart home experience that perfectly suits your needs This book teaches you to create smart home IoT solutions using Raspberry Pi and microcontrollers like Arduino NodeMCU ESP8266 and ESP32 You will learn to program these microcontrollers control relay modules and use sensors for data collection The guide covers using OpenHAB InfluxDB Mosquitto MQTT Broker and Grafana with Raspberry Pi enabling a unified system without coding It also shows how to connect OpenHAB to Alexa or Google Home for voice commands and automate tasks like lighting Bonus content includes using Raspberry Pi GPIO pins AI based hand gesture and face detection and Docker containers By the end of this book you will be a confident smart home builder equipped with the knowledge and skills to design implement and manage a customized system using open source software
