TikTok Marketing Training Guide Sanie Fitz, 2020-03-03 TikTok is an application that came out of nowhere was created in China where it is known as DOUYIN and for the rest of the world it is known as TikTok When TikTok was created it caused great euphoria among Chinese youth and teenagers because it was an application of video exchanges and for young people that was very fun TikTok joined musical.ly where young people could upload music videos where they could synchronize the movements of their lips with the music which was sensational Then the young people who had more experience technically uploaded original videos which caused them to become influential on the platform For young people it is very fun since they can upload videos with a duration of 15 seconds and can also share these videos in their stories and these videos have a duration of 60 seconds TikTok and musical.ly are addressed to the same audience First of all we may say that one of the large impediments that TikTok has had to make its marketing success is that most of the sellers and business managers over 30 do not know the platform or have not even heard of it

Momentary Musics Tobias Hess, 2022 The rise of music streaming platforms such as Spotify and the concurrent emergence of what is broadly known as the attention economy have radically shifted the aesthetics of the music industry as well as the artistic subjectivities of artists that operate within this paradigm Through a formal analysis of Spotify's recommendation algorithm I argue that algorithmic curation systems such as Spotify's create a new cultural paradigm that has replaced Adorno's conception culture industry What has replaced it is a dispersed meritocracy where success is determined by how well individual cultural actors conform to the preferred aesthetics of algorithmic platforms Using the emerging genre of hyperpop the rise of Lil Nas X as facilitated by social media and analyzing how fans use the music of Mitski on TikTok as case studies I explore how these dynamics play out across platforms and genres I argue that social media platforms such as Twitter and TikTok help to intensify the preferred

aesthetics of streaming platforms such as Spotify working to severely limit the creative possibilities of musical artists
