Virtual Presenting Jamie Cohen,Michael Sorrentino,2023-03-24 Responding to the widespread and continued acceleration of virtual working practices in recent years Virtual Presenting provides a clear guide to producing presenting and broadcasting in a remote context Unlike traditional studio production where a presenter is surrounded by a crew and cameras the virtual presenter is often isolated or connected to a remote crew Virtual Presenting explains how to make an authentic connection across great spaces linked only via the Internet Topics covered include how to build a virtual setup how to appear on camera how to appear confident and comfortable and how to optimize your presentation voice The authors demonstrate how to tell effective stories across the entire new media landscape of webcasting webinars livestreams and

virtual events Finally success stories and case studies from teachers students and professionals are interwoven to show how these guidelines translate into best practices Virtual Presenting will be a valuable resource for students of media production and remote broadcasting as well as professionals looking to become stronger communicators and visual presenters

The Space of the World Nick Couldry,2024-09-17 Over the past thirty years humanity has made a huge mistake We handed over to big tech decisions that have allowed them to build what has become our space of the world the highly artificial space of social media platforms where much of our social life now unfolds This has proved reckless and has huge social consequences The toxic effects on social life young people s mental health and political solidarity are well known but the key factor underlying all this has been missed the fact that humanity allowed business to construct our space of the world at all and then exploit it for profit In the process we ignored two millennia of political thought about the conditions under which a healthy or even a non violent politics is possible We endangered the one resource that is in desperately short supply in the face of catastrophic climate change solidarity Is human solidarity possible in a world of continuous digital connection and commercially managed platforms and what if it isn t In the first book of his trilogy Humanising the Future Nick Couldry offers a radical new vision of how to design our digital spaces so that they build rather than erode both solidarity and community This trenchant and vividly written book stresses that we cannot afford not to care for our space of the world We need to rebuild it together

Proceedings of the 2023 2nd International Conference on Social Sciences and Humanities and Arts (SSHA 2023) Mohd Fauzi bin Sedon,Intakhab Alam Khan,Mehmet CÜNEYT BİRKÖK,KinSun Chan,2023-06-29 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and

situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc
