The Present Economic Revolution in the United States Thomas Nixon Carver, 1925 **What Then Must We Do?** Gar Alperovitz, 2013-05-01 Never before have so many Americans been more frustrated with our economic system more fearful that it is failing or more open to fresh ideas about a new one The seeds of a new movement demanding change are forming But just what is this thing called a new economy and how might it take shape in America In *What Then Must We Do* Gar Alperovitz speaks directly to the reader about where we find ourselves in history why the time is right for a new economy movement to coalesce what it means to build a new system to replace the crumbling one and how we might begin He also suggests what the next system might look like and where we can see its outlines like an image slowly emerging in the developing trays of a photographer's darkroom already taking shape He proposes a possible next system that is not corporate capitalism not state socialism but something else entirely and something entirely American Alperovitz calls for an evolution not a revolution out of the old system and into the new That new system would democratize the ownership of wealth strengthen communities in diverse ways and be governed by policies and institutions sophisticated enough to manage a large scale powerful economy For the growing group of Americans pacing at the edge of confidence in the old system or already among its detractors *What Then Must We Do* offers an elegant solution for moving from anger to strategy

The Political Economy of the American Revolution Nancy Spannaus, Christopher White, Alexander Hamilton, Thomas More, Henry VIII, Thomas Gresham, John Milton, Jean Bodin, Benjamin Franklin, Gottfried Wilhelm Leibniz, George

Washington,2015-09-04 Do You Know What the American System Of Economics is All About Most Americans actually don't and it's not because they are actually stupid It's because there's been a systematic suppression of the truth to the point where it's been written out of the history books and schools throughout the nation The Political Economy of the American Revolution was first published in 1977 in order to revive the truth about American history Newspaper editor Nancy Spannaus and historian Christopher White assembled the crucial writings which defined the American System as a continuation of the Italian Golden Renaissance tradition and a war against British imperialism and free trade They produced a book of readings which served as an assault on the Treason School of American history This new edition adds some crucial materials but its guts are the same the works of Alexander Hamilton and his French predecessor Jean Baptiste Colbert These are writings you either can't find anywhere else or which are hard to find They are supplemented by introductory essays by Spannaus and White The scholar and the conscientious citizen will find this book indispensable The American war against British imperialist methods continues today and must be won **The Market Revolution in America** John Lauritz

Larson,2009-09-14 The mass industrial democracy that is the modern United States bears little resemblance to the simple agrarian republic that gave it birth The market revolution is the reason for this dramatic and ironic metamorphosis The resulting tangled frameworks of democracy and capitalism still dominate the world as it responds to the panic of 2008 Early Americans experienced what we now call modernization The exhilaration and pain they endured have been repeated in nearly every part of the globe Born of freedom and ambition the market revolution in America fed on democracy and individualism even while it generated inequality dependency and unimagined wealth and power In this book John Lauritz Larson explores the lure of market capitalism and the beginnings of industrialization in the United States His research combines an appreciation for enterprise and innovation with recognition of negative and unanticipated consequences of the transition to capitalism and relates economic change directly to American freedom and self determination links that remain entirely relevant today The Age of the Economic Revolution, 1876-1900 Carl N. Degler,1900
