Social Media Ethics and COVID-19 Berrin A. Beasley, Pamela A. Zeiser, 2022-11-04 *Social Media Ethics and COVID 19 Well Being Truth Misinformation and Authenticity* explores ways that some of the best and worst moments of the pandemic resulted from the interconnection of social media and ethics The ethical challenges social media poses for corporate providers government officials and users existed well before the outbreak of COVID 19 What responsibility do corporate providers bear for inaccurate information posted by users What responsibility do users bear In this post truth and polarized world who defines accurate information During the height of the COVID 19 crisis public health agencies emergency management agencies and traditional news media used social media to disseminate or to track information while users found communities for shared values or experiences At the same time users posted and amplified inaccurate or misleading scientific and health information engaged in hate and escalated conspiracy theories that have proven detrimental to the public health response to COVID 19 Edited by Pamela A Zeiser and Berrin A Beasley this collection brings together work from leading scholars in communication English philosophy and political science to examine the ethical use of social media during COVID 19 offering both a multidisciplinary understanding of the subject and tools for managing the challenges found at the intersection of social media ethics and COVID 19

[How to Publish Academic Books: A Guide to Publishing Monographs, Edited Volumes, Textbooks, and Theses](#) Nitin Liladhar Rane, Saurabh Choudhary, Jayesh Rane, 2024-12-05 The academic book publishing sector has a key function when it comes to knowledge production and dissemination across various disciplines For researchers scholars and educators the process of moving from concept to publication is rarely a trivial task and often involves the use of imagination perseverance and teamwork Publishing a monograph an edited volume or a textbook or turning your thesis into a book can be painful This book will help you demystify the world of academic book publishing offering authors a guide to navigating the complicated process with success This guide aims to provide authors with the knowledge of tools and resources needed to

publish a book that reflects their research If you want a sneak peek into the workings of scholarly publishing it features advice from senior authors publishers and academics with an intimate familiarity with the academic publishing process Divided into chapters the book covers the major elements of the publishing journey steps to writing the proposal advice on working with publishers and challenges of the current moment like open access and new fields of study The first step to getting published is learning to write a scholarly manuscript or book proposal Writers need to know how to present their research in front of potential publishers It necessitates then not just a firm grasp on the work in question but a facility for conveying the relevance of the work and its potential to make a difference Therefore it is very important to tread carefully through the relationship with the publishers as the success of publishing partnerships relies heavily on trust collaboration and shared vision for the book Open access publishing for scientific journals has played an increasingly important role in the ever evolving academic world There are new ways for authors to disseminate their work and increase the accessibility of research through open access It is an exciting time to be an author but it is also a challenging time in terms of financial viability and finding new publishing models This section deeply studies the influence of open access so that authors can better develop books around it Many students work years on their theses and getting them published can greatly aid their academic careers It is not simply editing this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher This book is a road map for authors making this transition For authors in emerging or interdisciplinary fields publishing can bring unique challenges There may not be established publishing pathways in these fields or the intended audience may be smaller and more specialized Despite these challenges there are great rewards to publishing in such fields and this book outlines strategies to achieve their success Authors will discover how to seek the ideal publisher determine their target market and how to frame their work to have a noteworthy effect in their area Technological advancements global trends and academic expectations have all combined to shape the future of academic book publishing By the end of this book readers will be equipped with a fundamental understanding of the academic publishing process From preparing manuscripts and working with publishers to navigating new models of publishing this guide arms authors with practical advice and strategies to ensure their research becomes a published book It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books
