Rules of the Road for Nonprofit Leaders Elizabeth M. Schmidt, 2025-08-01 A reframing of the legal profession for nonlawyers aiming to lead nonprofits more effectively Although the United States has the most robust nonprofit sector in the world the rules governing it are convoluted and often paralyze those who are trying to change the status quo Nonprofit leaders deserve rules that are clearly laid out explaining what they can and should do to achieve their missions rather than emphasizing only what is forbidden Rules of the Road for Nonprofit Leaders offers a translation of the nonprofit legal framework into terms that can be more easily understood by nonlawyers Schmidt provides a different lens through which nonprofit leaders can see more clearly how these laws can be more responsive to the changing needs of the nonprofit sector and of society This book shows nonprofit leaders board members and volunteers how nonprofit law relates to all aspects of nonprofit management

Supremacy Parmy Olson, 2024-09-10 WINNER OF THE FINANCIAL TIMES AND SCHRODERS 2024 BUSINESS BOOK OF THE YEAR AWARD In November of 2022 a webpage was posted online with a simple text box It was an AI chatbot called ChatGPT and was unlike any app people had used before It was more human than a customer service agent more convenient than a Google search Behind the scenes battles for control and prestige between the world s two leading AI firms OpenAI and DeepMind who now steers Google s AI efforts has remained elusive until now In Supremacy Olson tech writer at Bloomberg tells the astonishing story of the battle between these two AI firms their struggles to use their tech for good and the hazardous direction they could go as they serve two tech Goliaths whose power is unprecedented in history The story focuses on the continuing rivalry of two key CEOs at the center of it all who cultivated a religion around their mission to build god like super intelligent machines Sam Altman CEO of OpenAI and Demis Hassabis the CEO of DeepMind Supremacy sharply alerts readers to the real threat of artificial intelligence that its top creators are ignoring the profit driven spread of flawed and biased technology into industries education media and more With exclusive access to a network of high ranking sources Parmy Olson uses her 13 years of experience covering technology to bring to light the exploitation of the greatest invention in human history and how it will impact us all

Fundamentals of Internet of Things for Non-Engineers Rebecca Lee Hammons, Ronald J. Kovac, 2019-06-07 The IoT is the next manifestation of the Internet The trend started by connecting computers to computers progressed to connecting people to people and is now moving to connect everything to everything

The movement started like a race with a lot of fanfare excitement and cheering We re now into the work phase and we have to figure out how to make the dream come true The IoT will have many faces and involve many fields as it progresses It will involve technology design security legal policy business artificial intelligence design Big Data and forensics about any field that exists now This is the reason for this book There are books in each one of these fields but the focus was always an inch wide and a mile deep There s a need for a book that will introduce the IoT to non engineers and allow them to dream of the possibilities and explore the work venues in this area The book had to be a mile wide and a few inches deep The editors met this goal by engaging experts from a number of fields and asking them to come together to create an introductory IoT book Fundamentals of Internet of Things for Non Engineers Provides a comprehensive view of the current fundamentals and the anticipated future trends in the realm of Internet of Things from a practitioner s point of view Brings together a variety of voices with subject matter expertise in these diverse topical areas to provide leaders students and lay persons with a fresh worldview of the Internet of Things and the background to succeed in related technology decision making Enhances the reader s experience through a review of actual applications of Internet of Things end points and devices to solve business and civic problems along with notes on lessons learned Prepares readers to embrace the Internet of Things era and address complex business social operational educational and personal systems integration questions and opportunities The Venture Alchemists Rob Lalka,2024-05-14 Gold Medalist 2025 Axiom Business Book Awards Business Ethics Future Trends category Shortlist 2024 Best in Business Book Awards Society for Advancing Business Editing and Writing We once idolized tech entrepreneurs for creating innovations that seemed like modern miracles Yet our faith has been shattered We now blame them for spreading lies breaking laws and causing chaos Yesterday s Silicon Valley darlings have become today s Big Tech villains Which is it Are they superheroes or scoundrels Or is it more complicated some blend of both In The Venture Alchemists Rob Lalka demystifies how tech entrepreneurs built empires that made trillions Meta started as a cruel Halloween prank Alphabet began as a master s thesis that warned against corporate deception and Palantir came from a campus controversy over hateful speech These largely forgotten origin stories show how ordinary fears and youthful ambitions shaped their ventures making each tech tale relatable both wonderfully and tragically human Readers learn about the adversities tech entrepreneurs overcame the troubling tradeoffs they made and the tremendous power they now wield Using leaked documents and previously unpublished archival material Lalka takes readers inside Big Tech s worst exploitations and abuses alongside many good intentions and moral compromises But this story remains unfinished and The Venture Alchemists ultimately offers hope from the people who decades ago warned about the risks of the emerging Internet Their insights illuminate a path toward more responsible innovations so that technologies aren t dangerous weapons but valuable tools that ensure progress improve society and enhance our daily lives **Introduction to Generative AI, Second Edition** Numa Dhamani,2026-01-13 Get up to speed quickly with generative AI AI tools like ChatGPT and Gemini automated coding

tools like Cursor and Copilot and countless LLM powered agents have become a part of daily life They've also spawned a storm of misinformation hype and doomsaying that makes it tough to understand exactly what Generative AI actually is and what it can really do Introduction to Generative AI Second Edition delivers a clearly written survey of generative AI fundamentals along with the techniques and strategies you need to use AI safely and effectively In this easy to read introduction you'll learn How large language models LLMs work How to apply AI across personal and professional work The social legal and policy landscape around generative AI Emerging trends like reasoning models and vibe coding Introduction to Generative AI Second Edition guides you from your first eye opening interaction with tools like ChatGPT to how AI tools can transform your personal and professional life safely and responsibly This second edition has been completely revised to reflect the latest developments in the field from the latest innovations in prompt engineering and AI agents to fresh coverage of multimodal training reasoning models no code tools retrieval augmented generation RAG and more About the book Introduction to Generative AI Second Edition is an up to date guide to the capabilities risks and limitations of tools like ChatGPT Gemini and Claude This easy to follow guide moves quickly through the basics giving you the skills and understanding to use AI with confidence Along the way you'll explore how AI is impacting even established industries with an expert level look at global investment in AI AI education policy AI's economic impact and the ongoing legal and ethical issues of AI usage About the reader For anyone interested in generative AI No technical experience required About the author Numa Dhamani is a natural language processing expert working at the intersection of technology and society Maggie Engler is an engineer and researcher currently working on safety for large language models
