Linguistic Structures Harry van der Hulst, 2008 **Language**, 2007 **The Linguistic Review**, 2006 **Special Onymic Grammar in Typological Perspective** Thomas Stolz, Julia Nintemann, 2023-12-04 For the first time proper names are made the topic of a cross linguistic account of morphosyntactic properties which formally distinguish place names personal names and common nouns It is shown that the behaviour of place names and personal names in morphology and syntax frequently disagrees with the rules established for other word classes independent of the language's genetic affiliation grammatical structure and geographic location Place names and personal names each boast a grammar of their own They are candidates for the status of a distinct word class Their special grammar comes frequently to the fore in the domain of spatial and possessive relations This fact is explained with reference to functional notions

Folia Linguistica, 2007 **Studies in Language**, 2007 **Linguistics and Language Behavior Abstracts**, 2008-12 **Premodifiers in English** Jim Feist, 2011-10-27 The order and behaviour of the premodifier an adjective or other modifying word that appears before a

noun has long been a puzzle to syntacticians and semanticists Why can we say the actual red ball but not the red actual ball And why conversely do some other premodifiers have free variation in sentences for example we can say both German and English speakers and English and German speakers Why do some premodifiers change the meaning of a phrase in some contexts for example young man can mean boyfriend rather than man who is young Drawing on a corpus of over 4 000 examples of English premodifiers from a range of genres such as advertising fiction and scientific texts and across several varieties of English this book synthesises research into premodifiers and provides a new explanation of their behaviour order and use
