The SAGE Handbook of Social Media Marketing Annmarie Hanlon, Tracy L. Tuten, 2022-06-16 Social media marketing has become indispensable for marketers who utilize social media to achieve marketing objectives ranging from customer care to advertising to commerce This Handbook explores the foundations and methodologies in analysing the important aspects of social media for organisations and consumers It investigates critical areas concerning communities culture communication and content and considers social media sales This Handbook brings together the critical factors in social media marketing as the essential reference set for researchers in this area of continued growth It is essential reading for postgraduate students researchers and practitioners in a range of disciplines exploring the area Part 1 Foundations of Social Media Marketing Part 2 Methodologies and Theories in Social Media Part 3 Channels and Platforms in Social Media Part 4 Tools Tactics and Techniques in Social Media Marketing Part 5 Management and Metrics in Social Media Part 6 Ethical Issues in Social Media

Fear Itself Christopher D. Bader, Joseph O. Baker, L. Edward Day, Ann Gordon, 2020-03-03 An antidote to the culture of fear that dominates modern life From moral panics about immigration and gun control to anxiety about terrorism and natural disasters Americans live in a culture of fear While fear is typically discussed in emotional or poetic terms as the opposite of courage or as an obstacle to be overcome it nevertheless has very real consequences in everyday life Persistent fear negatively affects individuals decision making abilities and causes anxiety depression and poor physical health Further fear harms communities and society by corroding social trust and civic engagement Yet politicians often effectively leverage fears to garner votes and companies routinely market unnecessary products that promise protection from imagined or exaggerated harms Drawing on five years of data from the Chapman Survey of American Fears which canvasses a random national sample of adults about a broad range of fears Fear Itself offers new insights into what people are afraid of and how fear affects their lives The authors also draw on participant observation with Doomsday preppers and conspiracy theorists to provide fascinating narratives about subcultures of fear Fear Itself is a novel wide ranging study of the social consequences of fear ultimately suggesting that there is good reason to be afraid of fear itself

Deception Robert M. Clark, William L. Mitchell, 2018-01-12 The chapters on the exercises are a treasure chest of material to work with covering a whole array of scenarios I think virtually every page and topic could spark robust and spirited classroom discussion starting with the text title itself Ronald W Vardy University of Houston Most students have very little or no background in this subject area so Clark s work is great to introduce students to intelligence and the analytical disciplines a really excellent book that fills a gaping hole in the public literature and is of genuinely great value to both students and practitioners Carl A Wege Professor Emeritus College of Coastal Georgia Bridging the divide between theory and practice Deception Counterdeception and Counterintelligence provides a thorough overview of the principles of deception and its uses in intelligence operations This masterful guide focuses on practical training in deception for both

operational planners and intelligence analysts using a case based approach Authors Robert M Clark and William L Mitchell draw from years of professional experience to offer a fresh approach to the roles played by information technologies such as social media By reading and working through the exercises in this text operations planners will learn how to build and conduct a deception campaign and intelligence analysts will develop the ability to recognize deception and support deception campaigns Key Features New channels for deception such as social media are explored to show readers how to conduct and detect deception activities through information technology Multichannel deception across the political military economic social infrastructure and information domains provides readers with insight into the variety of ways deception can be used as an instrument for gaining advantage in conflict Contemporary and historical cases simulate real world raw intelligence and provide readers with opportunities to use theory to create a successful deception operation A series of practical exercises encourages students to think critically about each situation The exercises have several possible answers and conflicting raw material is designed to lead readers to different answers depending on how the reader evaluates the material Individual and team assignments offer instructors the flexibility to proceed through the exercises in any order and assign exercises based on what works best for the classroom setup

Cyber-security of SCADA and Other Industrial Control Systems Edward J. M. Colbert, Alexander Kott, 2016-08-23 This book provides a comprehensive overview of the fundamental security of Industrial Control Systems ICSs including Supervisory Control and Data Acquisition SCADA systems and touching on cyber physical systems in general Careful attention is given to providing the reader with clear and comprehensive background and reference material for each topic pertinent to ICS security This book offers answers to such questions as Which specific operating and security issues may lead to a loss of efficiency and operation What methods can be used to monitor and protect my system How can I design my system to reduce threats This book offers chapters on ICS cyber threats attacks metrics risk situational awareness intrusion detection and security testing providing an advantageous reference set for current system owners who wish to securely configure and operate their ICSs This book is appropriate for non specialists as well Tutorial information is provided in two initial chapters and in the beginnings of other chapters as needed The book concludes with advanced topics on ICS governance responses to attacks on ICS and future security of the Internet of Things
