math programs produce confident students who are not only able to correctly compute but also to apply concepts to new
situations These materials gently develop concepts and the practice of those concepts is extended over a considerable period
of time This is called incremental development and continual review Material is introduced in easily understandable pieces
increments allowing students to grasp one facet of a concept before the next one is introduced Both facets are then practiced
together until another one is introduced This feature is combined with continual review in every lesson throughout the year
Topics are never dropped but are increased in complexity and practiced every day providing the time required for concepts
to become totally familiar The student workbook includes student fact cards Grade 1
