

Process of Getting SIA Licenced

01

PASS THE SIA COURSE

To start an application, one must pay a fee of £190. Then, the SIA officials will respond to your application within 25 days, but it can take up to 6 weeks in rare circumstances.

This process may take six days, depending on the type of course. A practical assessment and multiple-choice tests are used to evaluate the training course.

02

FILL OUT THE APPLICATION

The photo ID attached to the SIA application form will have to verify your identity. It can be easily done at the post office or signed by someone who owns a British passport.

03

IDENTITY VERIFICATION

The authorities at SIA will do identity verification and go through your criminal records. You may be asked to show relevant documentation if you have lived abroad for six months or more.

04

APPLY TO SIA

This licence remains valid for three years. The SIA estimates that it can take up to 25 working days to get the licence. Begin your career as a door supervisor, security guard, or CCTV operator.

05

GET YOUR 3 YEAR LICENCE

Groenendijk,Elspeth Guild,Paul Minderhoud,2021-12-28 Borders define territories within which identities and order are described and delineated The triptych of indentities borders and orders is central to understanding the nature of sovereignty and the relations between countries Nowhere is this more apparent than in the European Union The changing definition and placement of the border is one of the most striking features of the recent transformations of the Union The definition of what a border is and where it is for persons has moved out of the territory of national sovereignty and has become the preserve in law of the European Community The enlargement of the European Union towards the countries of Central and Eastern Europe has created new challenges for the concept of borders in the EU This volume examines the extent of the Community power and the legal meaning of the EU s borders as well as the ways to control or not the movement of persons across

borders It considers the legal texts EC law on visas the Regulations on visas the meaning of borders for persons in Community Law the Schengen acquis and its incorporation into the EC Treaty and where appropriate the TEU national practice and its transformation with the insertion of the private sector s responsibility for the control of borders and judicial control The point of departure is the perspective of the individual who is seeking to cross these borders Impact Assessment David P. Lawrence,2013-10-14 Offers solutions and best practices to respond to recurrent problems and contemporary challenges in the field Since the publication of the first edition of Environmental Impact Assessment in 2003 both the practice and theory of impact assessment have changed substantially Not only has the field been subject to a great deal of new regulations and guidelines it has also evolved tremendously with a greater emphasis on strategic environmental sustainability and human health impact assessments Moreover there is a greater call for impact assessments from a global perspective This Second Edition now titled Impact Assessment to reflect its broader scope and the breadth of these many changes offers students and practitioners a current guide to today s impact assessment practice Impact Assessment begins with an introduction and then a chapter reviewing conventional approaches to the field Next the book is organized around recurrent problems and contemporary challenges in impact assessment process design and management enabling readers to quickly find the material they need to solve tough problems including How to make impact assessments more influential rigorous rational substantive practical democratic collaborative ethical and adaptive How each problem and challenge reducing process would operate at the regulatory and applied levels How each problem can be approached for different impact assessment types sustainability assessment strategic environmental assessment project level EIA social impact assessment ecological impact assessment and health impact assessment How to link and combine impact assessment processes to operate in situations with multiple overlapping problems challenges and impact assessment types How to connect and combine impact assessment processes Each chapter first addresses the topic with current theory and then demonstrates how that theory is applied presenting requirements guidelines and best practices Summaries at the end of each chapter provide a handy tool for structuring the design and evaluation of impact assessment processes and documents Readers will find analyses and new case studies that address such issues as multi jurisdictional impact assessment climate change cumulative effects assessment follow up capacity building interpreting significance and the siting of major industrial and waste facilities Reflecting current theory and standards of practice Impact Assessment is appropriate for both students and practitioners in the field enabling them to confidently respond to a myriad of new challenges in the field **The Shaping of Greenland's Resource Spaces** Mark Nuttall,2023-08-07 The book examines ideas about the making and shaping of Greenland s society environment and resource spaces It discusses how Greenland s resources have been extracted at different points in its history shows how acquiring knowledge of subsurface environments has been crucial for matters of securitisation and explores how the country is being imagined as an emerging frontier with vast mineral reserves The book

delves into the history and contemporary practice of geological exploration and considers the politics and corporate activities that frame discussion about extractive industries and resource zones It touches upon resource policies the nature of social and environmental assessments and permitting processes while the environmental and social effects of extractive industries are considered alongside an assessment of the status of current and planned resource projects In its exploration of the nature and place of territory and the subterranean in political and economic narratives the book shows how the making of Greenland has and continues to be bound up with the shaping of resource spaces and with ambitions to extract resources from them Yet the book shows that plans for extractive industries remain controversial It concludes by considering the prospects for future development and debates on conservation and Indigenous rights with reflections on how and where Greenland is positioned in the geopolitics of environmental governance and geo security in the Arctic This book will be of great interest to students and scholars of environmental anthropology geography resource management extractive industries environmental governance international relations geopolitics Arctic studies and sustainable development
