The Cognitive Artifacts of Designing Willemien Visser,2006-08-08 In this dynamic review and synthesis of empirical research and theoretical discussion of design as cognitive activity Willemien Visser reconciles and integrates the classical view of design as conceptualized by Herbert Simon s symbolic information processing approach with modern views of design such as the situativity approach as formulated by Donald Schon The author goes on to develop her own view on design in which design is most appropriately

characterized as a construction of representations She lays the groundwork for the integration of design research and cognitive science This seemingly simple framework has implications that set the stage for this mutually beneficial integration

Journey to the Ph.D. Anna L. Green, LeKita V. Scott, 2023-07-03 As a new generation of African Americans completes college an increasing number of students are aspiring to the Ph D as a stepping stone to a career in the academy and to fully participate in shaping our society Most African Americans are conscious that they are the first in their families to embark on this journey They are aware they will meet barriers and prejudice are likely to face isolation and frustration and find few sources of support along the way This book by twenty four Black scholars who have been there offers a guide to aspiring doctoral students to the formal process and to the personal emotional and intellectual challenges they are likely to face The authors come from a wide range of disciplines from computing education and literature to science and sociology Although their experiences and backgrounds are as varied as they are as individuals their richly diverse chapters cohere into a rounded guide to the issues for those who follow in their footsteps From questioning the reader about his or her reasons for pursuing a doctorate offering advice on financial issues the choice of university and doctoral program and relocation through the process and timetable of application interviews acceptance and rejection the authors go on to describe their own journeys and the lessons they have learned These men and women write candidly about their experiences the strategies they used to maintain their motivation make the transition from HBCUs to PWIs balance family and work make the right choices and keep focussed on priorities They discuss how to work effectively with advisors and mentors make all important connections with teachers and build professional and personal support networks They recount how they dealt with tokenism established credibility handled racism maintained their values and culture and persuaded supervisors to legitimize their research interests in African American issues This is both an inspirational and practical book for every African American considering pursuit of a doctoral degree

Adult Education and the Postmodern Challenge Ian Bryant, Rennie Johnston, Robin Usher, 2004-08-02 This book offers some suggestions as to ways forward from this dilemma Drawing on the new intellectual frameworks of critical pedagogy feminism and postmodernism and their impact upon educational theory practice and research the book focuses on the changing contexts of adult education By building on the notion of going beyond the limits of certain current adult education orthodoxies the authors try to provide alternatives for practice The final three chapters deal with research focusing on a critical macro analysis of mainstream paradigms a review of alternative approaches and a more micro analysis centering on the role of the socially located self in the research process
