Proceedings American Association for Artificial Intelligence, 2004

Proceedings from the latest meeting of the leading AI conference includes theoretical, experimental, and empirical work. The National Conference on Artificial Intelligence remains the bellwether for research in artificial intelligence. Leading AI researchers and practitioners, as well as scientists and engineers in related fields, present theoretical, experimental, and empirical results covering a broad range of topics that include principles of cognition, perception, and action; the design, application, and evaluation of AI algorithms and systems architectures and frameworks for classes of AI systems; and analyses of tasks and domains in which intelligent systems perform.

The Innovative Applications of Artificial Intelligence conference highlights successful applications of AI technology, explores issues, methods, and lessons learned in the development and deployment of AI applications, and promotes an interchange of ideas between basic and applied AI. This volume presents the proceedings of the latest conferences held in July 2004.

Named a Best Business Book of 2021 by Soundview Magazine. Transform your organization into a constantly learning, ever-evolving industry leader with the proven operating model of leading global firms. For decades, leaders of large, complex organizations have been rightfully encouraged to run their organizations like lean, agile startups. More often than not, they place their bets on trends like digital transformation or design thinking. Well-intended, yet in isolation, they are not enough. There's another, better way to drive durable, effective change in your organization, and it's been proven effective by global IT and business consulting leader Infosys. The Live Enterprise operating model provides a clear path to transform large, complex businesses into agile, digital ecosystems that evolve with changing market needs and scale to any size. You'll learn how to apply the benefits of the startup operating model, but go much further. This groundbreaking guide addresses issues critical to transform large organizations such as:

- Create an organizational structure that drives collaboration, innovation, strategic

alignment and new culture across distributed interconnected teams Respond quickly yet thoughtfully and scientifically to opportunities to create valuable new employee and customer experiences Reengineer your value chain to see what's missing what can be improved and what can be eliminated to generate exponential value Automate systems so routine decisions can be acted upon with maximum human intuition and minimum human intervention Groundbreaking in theory and long term strategy this game changing guide includes practical steps you can take now for immediate concrete results while laying the groundwork to operate with agility in the future The application of Live Enterprise enabled Infosys to make the kinds of changes during the COVID crisis to not only survive but drive outstanding financial results Now you can use this innovative approach to position your company for the highly unpredictable future ahead **Technofeminist Resistance** Christina Grammatikopoulou, 2026-03-19 Looks at feminist resistance in the physical and digital space exploring strategies and aesthetics that express dissent as well as subversive uses of technology that support gender equality **Transactions** American Institute of Electrical Engineers, 1930 List of members in v 7 15 17 19 20
