Australian Democracy Sarah Murray, Lachlan Umbers, 2025-05-13 The Australian democratic system has long been regarded
as one of the most stable and predictable in the world with an entrenched two party duopoly compulsory voting ensuring
high levels of electoral participation and relatively high levels of satisfaction with the democratic process Yet the ways
Australians engage with and participate in their democracy have shifted substantially in recent times While a record
proportion of Australians are now on the electoral roll less than 1% belong to a political party and the share of Australians
that have always voted for the same party in Federal elections has declined from 72% in 1967 to 37% in 2022 Turnout in the
2022 Federal Election fell below 90% for the first time since the introduction of compulsory voting in 1924 Over 50% of
voters cast their ballots early in 2022 up from around 10% in 2004 The advent of social media has afforded Australians a
range of opportunities for political engagement but has also given rise to serious concerns surrounding the dissemination of
misinformation And Australians have also recently been afforded several historically rare opportunities for direct
participation in the lawmaking process particularly the 2017 same sex marriage plebiscite and the 2023 referendum on the
Aboriginal and Torres Strait Islander Voice to Parliament These developments give rise to a wide range of deep difficult
questions for Australian democracy many of which have been under explored What for instance does the failure of the
referendum on the Aboriginal and Torres Strait Islander Voice to Parliament mean for Australian democracy What sorts of
opportunities ought to be afforded to Australians for direct participation in government How might climate change impact
Australian democracy in the coming decades How might the rise in early voting impact the character of Australian
democracy What opportunities do Australians have for engagement in civic life and what obstacles do they face in exercising
them This edited collection brings together specialists in the democratic process to consider such questions alongside many
others Moreover the collection is uniquely interdisciplinary insofar as the contributors are drawn from a diverse range of
fields law philosophy political science and sociology The chapters each help bring us a broader understanding of civic
participation in Australian democracy in order that we might evaluate the status quo and gauge where it might be headed in
the future *Weekly Commercial News*, 1924 **Children, Media, and Technology** Erica Scharrer, 2025-04-02 An
