New Mexico Law Review, 2013      **Latin for Lawyers** E. Hilton Jackson, 1960      **Latin** Waldo E. Sweet, Ruth Swan Craig, Gerda M. Seligson, 1966  
 Applies the findings of structural linguistics to the teaching of Latin      The Survey of the Whole of England Colin Flight, 2006  
 The manuscript which eventually came to be called Domesday Book is a product of the enterprise originally known as the Descriptio totius Angliae the survey carried out in 1086 twenty years after the Norman Conquest by order of King William I  
 This manuscript does not stand alone It is the latest of four successive versions of the written record of the survey Intrinsically the least valuable it has gained in value over time as the earlier versions have dropped out of existence  
 But they have not disappeared completely Part of the immediately preceding version survives as the companion volume to Domesday Book part of the version preceding that survives for some unknown reason in the library of Exeter Cathedral even though it was without any doubt written in the king's treasury at Winchester  
 The earliest version of all the only version in which the data were recorded cadastrally county by county hundred by hundred village by village manor by manor has been entirely lost in the original yet for most of one county a copy survives in a late twelfth century manuscript from Ely  
 This book begins with a sequence of chapters which analyse some aspects of the manuscript evidence from a new angle or in closer detail than before working backwards from the latest version towards the earliest  
 The last two chapters reassemble the evidence to create a new picture of the conduct of the survey in both its fieldwork and its post fieldwork phases
