SAR Image Analysis - A Computational Statistics Approach Alejandro C. Frery, Jie Wu, Luis Gomez, 2022-07-20. SAR IMAGE ANALYSIS: A COMPUTATIONAL STATISTICS APPROACH. Discover how to use statistics to extract information from SAR imagery. In *SAR Image Analysis: A Computational Statistics Approach*, an accomplished team of researchers delivers a practical exploration of how to use statistics to extract information from SAR imagery. The authors discuss various models, supply sample data and code, and explain theoretical aspects of SAR image analysis that are highly relevant to practitioners and students. The book offers the theoretical properties of models, estimators, interpretation, data visualization, and advanced techniques, along with the data and code samples that students require to learn effectively and efficiently. *SAR Image Analysis: A Computational Statistics Approach* provides various exercises throughout the book to help readers reinforce and retain the extensive information on parameter estimation, applications, reproducibility, replicability, and advanced topics like robust estimators and stochastic distances contained within. The book also includes thorough introductions to data acquisition and the elements of data analysis and image processing with R, including useful R packages, preprocessing SAR data, and visualization. Comprehensive explorations of intensity SAR data and the multiplicative model, including the SAR gamma distribution, the K distribution, the G0 distribution, and more general distributions under the multiplicative model. Practical discussions of parameter estimations, including the Bernoulli distribution, the negative binomial distribution, and the uniform distribution. In-depth examinations of applications, including statistical filters and classification. Perfect for undergraduate and graduate students studying remote sensing, data analysis, and statistics. *SAR Image Analysis: A Computational Statistics Approach* is also an indispensable resource for researchers, practitioners, and professionals seeking a one-stop resource on how to use statistics to extract information from SAR imagery.
