Tutorial Supercomputers Kai Hwang, 1984 **Compression for Great Video and Audio** Ben Waggoner, 2013-02-11
Learn how to compress video and audio with optimal quality and minimal hassles Renowned expert Ben Waggoner teaches you to improve the quality of your final content and develop effective workflows Understand the basic concepts of vision and hearing apply that knowledge in the context of compression then move onto practical applicable information for creating editing and compressing the best video and audio whether you re delivering for the web DVD Blu ray phones or beyond Clear examples of how to make the best choices in real world projects Covers Mac and Windows products for a complete look at today s compression technologies all the different tools codecs and formats for different kinds of deliverables are described focusing on how to pick the right options for particular projects players and sources Formats Windows Media QuickTime Flash FLV and F4V MPEG 4 and H 264 MPEG 2 Ogg Vorbis and Theora Silverlight and Smooth Streaming Devices iPod and iPhone Zune HD Playstation Portable Playstation 3 Xbox 360 DVD and Blu ray **Constructing Music** Teresa M. Nakra, 2024 Why does music exert such a strong pull on us How does it work Traditional courses in music fundamentals give students a basic understanding of the building blocks of music and how to put them together to make a result that produces an intended effect Constructing Music Musical Explorations in Creative Coding takes students a step further through a series of step by step tutorials and lessons author Teresa M Nakra presents a new method for teaching music fundamentals that foregrounds creative coding practices and builds upon the computing skills that today s students already possess By encouraging experimentation with computer code this book gives students tools to actively investigate simulate and engage with the structure of music ultimately leading to greater understanding about the processes that underlie music s power over us Designed to support computer based learning in tonal harmony musicianship and music theory Constructing Music avoids the lens of Western music notation and instead explains music content through analogies with toy bricks and references ideas from creative technology engineering and design Students also engage directly with the components of musical structure using editable short code patches developed in Max a visual coding environment for interactive music audio and

media Dozens of patches accompany the book and allow readers to play with the building blocks of sound reinforcing each topic by tinkering modifying and creating their own versions of the material Each chapter explains core music theory concepts in detail and supports every description through code simulations progressing through the topics with increasing complexity In the final chapter Nakra explores the questions and theories that emerge from the lessons considering the role of music as a proto form of AI and its impacts on emotion wellness and creativity
