Stem Kits Update Returns:

How to STEM Carol Smallwood, Vera Gubnitskaia, 2013-12-05 During the past few years groups like the President's Council of Advisors on Science and Technology Center for Education have been placing great emphasis on the significance of STEM science technology engineering and math education In brief the US is seen as falling behind the rest of the world in science and technology education In response the curricula have been revised in many educational institutions and school districts across the country It is clear that for STEM to be successful other community organizations most particularly libraries need to be closely involved in the process Library staff realize the importance of getting involved in STEM education but many have difficulty finding comprehensive information that will help them plan and successfully implement STEM direction in their organization This book is designed to meet that need It is timely and relevant How to STEM Science Technology Engineering and Math Education in Libraries is by and for libraries who are involved in contributing efforts into advancing these subjects It is organized in 9 parts including funding grant writing community partnerships outreach research and examples of specific programming activities Authors are drawn from the professional staffs of educational institutions libraries and non profit organizations such as science museums The book contains eight parts each emphasizing a different aspect of how to succeed with STEM Part 1 emphasizes how hands on activities that are both fun and educational can be used to further STEM awareness Parts 2 and 3 contain chapters on the uniting of STEM with Information Literacy Innovative collection development ideas are discussed in Part 4 and Part 5 focuses on research and publishing Outreach is the theme of Part 6 and the programs described in these chapters offer an array of ways to connect with students of all ages The final section of How to STEM Science Technology Engineering and Math Education in Libraries addresses the funding of these programs Librarians of all types will be pleased to discover easy to implement suggestions for collaborative efforts many rich and diverse programming ideas strategies for improving reference services and library instruction to speakers of English as a second language marketing and promotional tips designed to welcome multicultural patrons into the library and much more

Audio Recorders to Zucchini Seeds Mark Robison, Lindley Shedd, 2017-05-30 This exploration of the range of options for a library of things collection demonstrates what has been implemented successfully and offers practical insights regarding these nontraditional projects from the development of concepts to the everyday realities of maintaining these collections What services libraries provide and how they function in their communities is constantly being reconsidered and redefined One example of this is the trend of experimenting with building circulating collections of nonliterary things such as tools seeds cooking equipment bicycles household machinery and educational materials by drawing on traditional library functions and strengths of acquisition organization and circulation Audio Recorders to Zucchini Seeds Building a Library of Things enables you to consider the feasibility of creating a specific type of thing collection in your library and get practical advice about the processes necessary to successfully launch and maintain it from planning and funding to circulation

promotion and upkeep This contributed volume provides a survey of library of things projects within the United States from both public and academic libraries offering real world lessons learned from these early experiments with nontraditional collections The authors offer practical insights from their projects from the development of their initial ideas to the everyday realities of maintaining and circulating these collections including cataloging space needs safety concerns staff training circulation marketing and assessment The contributed chapters are organized thematically covering things collections that encompass a wide variety of objects first followed by collections with a community building focus seeds recreation tools and those that serve an educational purpose such as curriculum centers children s toys or collections that support a university curriculum The last section addresses collections that support media production

Technical Report of the NAEP 1996 State Assessment Program in Mathematics Nancy L. Allen,1997 The purpose of this report is to provide technical information about the 1996 State Assessment in Mathematics It provides a description of the design for the State Assessment and gives an overview of the steps involved in the implementation of the program from the planning stages through to the analysis and reporting of the data The report describes in detail the development of the cognitive and background questions the field procedures the creation of the database and data products for analysis and the methods and procedures used for sampling analysis and reporting It does not provide the results of the assessment rather it provides information on how those results were derived Chapters include 1 Overview The Design Implementation and Analysis of the 1996 State Assessment Program in Mathematics 2 Developing the Mathematics Objectives Cognitive Items Background Questions and Assessment Instruments 3 Sample Design and Selection 4 State and School Cooperation and Field Administration 5 Processing and Scoring Assessment Materials 6 Creation of the Database Quality Control of Data Entry and Creation of the Database Products 7 Weighting Procedures and Variance Estimation 8 Theoretical Background and Philosophy of National Assessment Educational Progress NAEP Scaling Procedures 9 Data Analysis and Scaling for the 1996 State Assessment Program in Mathematics and 10 Conventions Used in Reporting the Results of the 1996 State Assessment Program in Mathematics Appendices include Participants in the Objectives and Item Development Process Summary of Participation Rates Conditioning Variables and Contrast Codings IRT Item Response Theory Parameters for Mathematics Items State Assessment Program Reporting Subgroups Composite and Derived Common Background Variables and Composite and Derived Reporting Variables Setting the NAEP Achievement Levels for the 1996 State Assessment in Mathematics Correction of the NAEP Program Documentation Error in the 1992 State Mathematics Results The Information Weighting Error and Sample Design and Selection Tables Contains 78 references ASK
