Gehl, 2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to

obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism

modern AI works and its ethical implications the book offers a hype free perspective showing where AI is genuinely useful and where it is not. It breaks AI into three accessible categories. Starting with Utility AI tools that help organize and enhance your work: identify the best shots, select image elements, transcribe and search videos, clean audio and summarize text. You'll then explore Generative AI: learning to create new text, images, video and audio with creative control. GenAI doesn't have to replace your work; you'll discover tips for better prompting, tools for retouching and fresh methods for brainstorming and ideation. Finally, you'll uncover the potential of Automation AI to help edit videos, process photos and build scripts that streamline your creative workflows. Packed with hands-on examples using accessible tools like Firefly, Runway, Sora, Photoshop, DaVinci Resolve and ElevenLabs, this book equips you to integrate AI into your practice with clarity and confidence. By the end, you'll know how to get the best from AI while preserving the unique value of human creativity in an AI-driven world. What you will learn: Understand modern AI foundations and ethics. Use AI to organize, classify and improve media. Apply AI to images, video and audio enhancement. Summarize, rewrite and translate text effectively. Generate new text, images, video and audio. Automate workflows with assistants and scripts. Evaluate AI's role in professional creative practice. Balance efficiency, originality and ethical concerns. Who this book is for: This book is for creative professionals: photographers, digital creators, video editors, writers and enthusiasts who want to understand and apply AI in their work. Readers should already be comfortable with digital creative tools in at least one medium and ready to explore more. Whether you're seeking to enhance productivity, explore generative creativity or navigate ethical questions, this book offers clear practical guidance.

Digital Innovations for Mass Communications Paul Martin Lester, 2013-11-12. In every field of mass communications: advertising, entertainment studies, journalism, public relations, radio, television, film, tourism and visual reporting, professionals understand the importance of storytelling. Regardless of whether the finished product is a commercial, an in-depth investigative piece, a public service campaign, an independent documentary, a travelogue or a collection of photographs, effective storytelling requires a combination of creativity, empathy and expertise. Through the innovative technologies and techniques described in this textbook, students will learn how to turn passive readers and viewers into engaged and regular users. The sixteen chapters each include a brief introduction, assignments, simple to follow step-by-step exercises and sources for additional information in which users will learn to produce apps, informational graphics, quick response codes, quizzes, simulations, smartphone and tablet icons, social media campaigns, three-dimensional pictures and video. Students will work with the following programs: Blogger, Dreamweaver, Excel, Facebook, GeoCommons, Google Maps, Illustrator, Imgur, iMovie, Infogram, iShowU, JavaScript, JustGive, Kaywa, Kickstarter, LinkedIn, Onvert, Photoshop, Pixel Resort, QuickTime, Reddit, Second Life, SurveyMonkey, TheAppBuilder, Twitter, Vizualize, Wikipedia, Word, WordPress and YouTube. When digital innovations are added to traditional print and screen presentations, a media user is not only allowed to interact with the information but can also physically engage with the story displayed. Giving students the tools they need to transform their storytelling in this
