Building and Unbuilding the City Museum Sarosh Anklesaria, Lily Chi, 2026-04-02 Sanskar Kendra stands as one of Le Corbusier's lesser known architectural achievements a cultural center designed for post independence Ahmedabad that now faces an uncertain future This book examines Sanskar Kendra both as a physical artifact and as a site of broader cultural debates Originally conceived as a Citizens Cultural Center to serve India's emerging modern society the building was intentionally designed as an alternative to colonial and European museum models Today however the abandoned structure seems increasingly disconnected from the rapidly changing city growing around it Through detailed analysis of the project's ambitious beginnings and the debates surrounding its potential demolition the collection explores themes ranging from concrete construction techniques to questions about who gets included and excluded from public cultural spaces The essays bring together local and international perspectives on pressing contemporary issues how we care for and maintain our built environments what it means to create truly participatory public spaces in an age of market driven development and how design can serve as a tool for social change Two of the chapters take a visual approach to these questions Award winning architectural photographer Randhir Singh contributes a photo essay that captures the building's current state while another chapter presents speculative architectural designs that imagine alternative futures for Sanskar Kendra This book concludes with renowned architect B V Doshi's reflections on the architect's responsibility to society This book will appeal to scholars educators and students working in architectural theory history and design education It's also valuable for readers interested in visual culture urban studies museum and curatorial studies and South Asian studies **Programs** Minneapolis Symphony Orchestra, 1941 **Collecting the Past Investing in the Future** Bobby Rakhit, Your essential guide to uncovering hidden treasures in your attic and transforming forgotten relics into serious financial assets If you're a collector a wealth advisor or

**Media and Communication Theory** Bart Cammaerts, 2026-02-27 This innovative textbook explores media and communication theory and its intersections with social and political theory through the prism of eight core dichotomies: communication media, private/public, production/reception, material/symbolic, mainstream/alternative, abundance/scarcity, control/freedom, and virtual/real, revealing their complex interrelationships and significance in understanding contemporary media and communication landscapes. Students will gain a nuanced understanding of media and communication theories by examining both sides of each dichotomy and their dynamic interplay. The book historicizes each concept pair, illustrates them with past and present examples, and demonstrates how competing paradigms often complement rather than contradict each other. This approach helps readers grasp theoretical complexity, recognize the democratic importance of media and communication, and develop critical thinking skills through engaging case studies and discussion questions in each chapter. This textbook is designed for undergraduate and postgraduate students taking media and communication theory courses. Instructors teaching critical media and communication theory will find the dichotomy-based approach particularly valuable for helping students navigate complex theoretical debates and understand the field's intellectual development. It will also be useful supplementary reading for specific topics within broader media studies programs.
