The European Journal of Cultural Management and Policy (EJCMP) | 2023-2024 Retrospective Anna Villarroya, Elena Borin, Fabio Donato, 2025-06-06 It is with joy that we present this eBook compiling the manuscripts published by EJCMP in 2023 and 2024 We are very grateful to all the authors editors and reviewers who have been contributing to EJCMP Their dedication and high level work have been crucial in shaping the journal into a platform that not only fosters academic excellence but also bridges the gap between theoretical research and practical applications in the field of cultural management and policy This collection represents a diverse range of topics ranging from the impact of digital transformation and Artificial Intelligence on the cultural sectors to new trends in cultural policy including the intersections among culture diversity and sustainability values And all that using new and diverse research methods and perspectives reflecting the dynamic and interdisciplinary nature of cultural management and policy studies As we celebrate our second compilation we look forward to the continued growth and impact of EJCMP Our goal remains to provide a vibrant forum for the exchange of ideas fostering a deeper understanding of cultural policies and practices We encourage scholars practitioners and students to engage with the content of this eBook and we hope it serves as an inspiration for future research and discussions

Unlocking Data with Generative AI and RAG Keith Bourne, 2024-09-27 Leverage cutting edge generative AI techniques such as RAG to realize the potential of your data and drive innovation as well as gain strategic advantage Key Features Optimize data retrieval and generation using vector databases Boost decision making and automate workflows with AI agents Overcome common challenges in implementing real world RAG systems Purchase of the print or Kindle book includes a free PDF eBook Book Description Generative AI is helping organizations tap into their data in new ways with retrieval augmented generation RAG combining the strengths of large language models LLMs with internal data for more intelligent and relevant AI applications The author harnesses his decade

of ML experience in this book to equip you with the strategic insights and technical expertise needed when using RAG to drive transformative outcomes. The book explores RAG's role in enhancing organizational operations by blending theoretical foundations with practical techniques. You'll work with detailed coding examples using tools such as LangChain and Chroma's vector database to gain hands-on experience in integrating RAG into AI systems. The chapters contain real-world case studies and sample applications that highlight RAG's diverse use cases from search engines to chatbots. You'll learn proven methods for managing vector databases, optimizing data retrieval, effective prompt engineering, and quantitatively evaluating performance. The book also takes you through advanced integrations of RAG with cutting-edge AI agents and emerging non-LLM technologies. By the end of this book, you'll be able to successfully deploy RAG in business settings, address common challenges, and push the boundaries of what's possible with this revolutionary AI technique.

What you will learn:

- Understand RAG principles and their significance in generative AI.
- Integrate LLMs with internal data for enhanced operations.
- Master vectorization, vector databases, and vector search techniques.
- Develop skills in prompt engineering specific to RAG and design for precise AI responses.
- Familiarize yourself with AI agents' roles in facilitating sophisticated RAG applications.
- Overcome scalability, data quality, and integration issues.
- Discover strategies for optimizing data retrieval and AI interpretability.

Who this book is for: This book is for AI researchers, data scientists, software developers, and business analysts looking to leverage RAG and generative AI to enhance data retrieval, improve AI accuracy, and drive innovation. It is particularly suited for anyone with a foundational understanding of AI who seeks practical, hands-on learning. The book offers real-world coding examples and strategies for implementing RAG effectively, making it accessible to both technical and non-technical audiences. A basic understanding of Python and Jupyter Notebooks is required.

Leading the Sustainable Organization Peter McAteer, 2025-08-05 Never before have we been presented with the prospect of redesigning business at scale to create a more sustainable future for our planet and the people who inhabit it As we pass the midpoint of the Sustainable Development Goals 2015 2030 the world has changed There is not only more progress and policy but also more disagreement on the way forward The bottom line is that the shared goals developed in 2015 will not be met global warming will likely exceed targets and the collective challenge will be left to a new generation The book is organized as a series of business challenges and key questions that enable a transition from making legacy companies more carbon and waste efficient to operating in fundamentally new ways The vast majority of the new infrastructure the world will need by 2050 still needs to be built Those challenges will not be solved by legacy companies working to protect their market position in the face of a changing world The book offers a chapter by chapter guide to enable new leaders to turn challenges into opportunities
