**Analyzing Bar Charts for Profit** John Magee, Richard J McDermott, 2001-01-01 For the average investor it is difficult to know which money making trends to follow how to recognize warning signals in the markets and when to buy or sell to make the most profit Many investors try to predict the direction of stock picks and the overall market by using fundamental analysis Unfortunately they are usually disappointed Technical analysis is a proven approach that allows investors to spot profitable trends and money making stocks before others while protecting the profits they ve made Analyzing Bar Charts for Profits shows investors how to use technical analysis to make money in bull bear or even flat markets Hailed as the Father of Technical Analysis John Magee shares his proven methods and profit secrets developed over a lifetime of analysis He presents a complete explanation of technical analysis in language that is easy to follow [Bar Chart Basics](#) Darrell R. Jobman, 1998 [Analyzing Bar Charts for Profit](#) John Magee, 1994 The study of market action using daily charts and other market indicators has been a popular investing tool around the globe Analyzing Bar Charts for Profit will help you master this technical approach to stock analysis putting you on a level playing field with the top professionals Written by the internationally renowned trading expert John Magee this new book provides the most concise explanation of the technical process ever written Here Magee reveals the secrets to understanding how charting a trend will make or save you thousands of dollars You also will find out how stocks typically behave when to buy when to sell when to enter stop orders and how you can improve your investment performance This book also explains how the business affairs of a company and all political or market forces such as interest rates and tax rates might affect the economy and the market price for the company s stock And because investors are always considering future expectations as well as present conditions the charts paint a picture of what the entire investing public looks for in the future By knowing how to use charts to monitor a stock s activity you will be able to identify the relationship between the price action of the stock and its value And most importantly you can use this new understanding to temper emotional responses to unexpected or unwelcome developments and to protect your position from those impulses BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
