Bitcoin for Boomers - Bitcoin for Seniors: Ditch the Debt, Ditch the Dollar, Discover Real Wealth Steve Stylz, 2025-10-25

The world we grew up in is gone. For decades, Baby Boomers believed in steady pensions, reliable savings, and the promise that Social Security would provide security in our later years. But those pillars are now crumbling under the weight of inflation, endless government debt, and a financial system that enriches the few while hollowing out the many. What once felt solid is now quicksand. Bitcoin for Boomers is not a get-rich-quick scheme or a technical manual. It is a roadmap to financial freedom in a time of great uncertainty. Written with Boomers in mind, this book strips away the jargon and fear, showing in plain language why Bitcoin is not just speculation but the most important form of money ever invented. It is scarce, incorruptible, and built for a future where individuals take back control of their wealth. [The Weekly Notes](#) Frederick Pollock, 1910

The Weekly Underwriter Alasco Delancey Brigham, Henry Rogers Hayden, 1924 [On the Grid](#) Luke Smith, 2025-02-13

On the Grid is incredibly special. I loved every thoughtfully written word. Will Buxton is one of the foremost journalists within the paddock. His book draws the curtain back on our sport. Very few titles have covered the stories of the unsung members of the F1 community in this level of detail and with such vibrancy. Toto Wolff. Even if you think you know everything, there is so much to know about Formula 1. You'll learn something within these pages. GP Racing Formula 1 might only have twenty drivers in its most elite competition, but each is supported by a world-class team of mechanics, engineers, strategists, party planners, and much more. In *On the Grid*, journalist Luke Smith takes us behind the scenes of the past, present, and future of the sport, telling its story through the eyes of the people who create it, including the all-important fans. We see thrilling drama, cutting-edge technology, the stress, and the glamour. Smith takes us to the starting grid, full of engine fumes and sweat, to yacht parties in Monaco, and to the pit lane for the critical mid-race decisions. We see how a fifty-pence screw in the wrong place could cause a 1.5m car to break down, how F1 has influenced not just the cars we drive but life-saving medical equipment and even croissants. How you create a Grand Prix track from scratch. *On the Grid* shows us what it's like to work in a high-pressure and inherently dangerous sport, showcasing the personalities that give it such drama and intrigue. It examines how the sport is addressing its critics around inclusivity and environmental impact. For both long-time fans and newcomers, what results is the definitive account of what makes F1 stand alone in world sport. **Grand Prix** Will Buxton, 2024-08-13
