### **The AI Revolution in Project Management** Vijay

Kanabar, 2023-12-08. In a world where technology is rapidly evolving, the fusion of project management and artificial intelligence stands at the forefront of innovation. *The AI Revolution in Project Management* delves deep into the transformative power of generative AI tools that promise to reshape industries and revolutionize how we manage projects. Whether you're looking to build dynamic teams using AI, choose a project development approach, or monitor project performance, this book has got you covered. Each chapter provides insightful narratives and includes a supplemental Technical Guide that provides tips on using the AI technology. With case studies and prompts, the dialogues showcase AI in action, from stakeholder engagement to risk management. Dive in with experts who've spent countless hours using these AI tools in project scenarios to offer a transparent view into generative AI-driven project management. In this book, you'll learn how to create prompts that generate meaningful and actionable insights tailored for your projects, when to use AI to enhance decision-making, supercharge productivity, and elevate overall project efficiency. Which generative AI models and plug-ins to use for specific project scenarios, ensuring seamless integration and maximum efficiency. AI is not just a buzzword; it's a tool reshaping how we manage projects and engage with stakeholders. From the Foreword by Ricardo Viana Vargas, Ph.D., Ricardo is an experienced leader in global operations, project management, business transformation, and crisis management. As founder and managing director of Macrosolutions, a consulting firm with international operations in energy, infrastructure, IT, oil, and finance, he managed more than 20 billion in international projects in the past 25 years. Update: As AI products continue to evolve, information published in this book may change. Please note that as of February 2024, there is a name change for Bing Chat and Bard Chat. Microsoft Bing Chat is now Copilot (<https://copilot.microsoft.com>). Google Bard is now Gemini (<https://gemini.google.com>).

### Proceedings of the 5th International Conference on AI Research Renata Paola Dameri, The

International Conference on AI Research (ICAIR) is becoming a key forum for academics and students. Whether social scientists, natural scientists, or philosophers come together to explore the future of society in the context of AI. Many aspects of AI are now the subject of peer-reviewed academic research, including the increasing use of Chatbots and GenAI in academe and in society at large. The conference was initially launched in 2019 as the European Conference on Artificial Intelligence and Robotics. After a successful inaugural event in Oxford, the conference fell victim to COVID, and the following three years were held online. Time was taken in 2023 to refocus this fast-developing area of research, and the name of the conference was changed this year to the International Conference on Artificial Intelligence. The Proceedings of the 2025 edition of the conference include academic research papers, PhD research papers, Masters Research papers, and work-in-progress papers. All

of which have been presented and discussed at the ICAIR 2025 conference The proceedings are of an academic level appropriate to a professional research audience including graduates postgraduations doctoral and post doctoral researchers All papers have been double blind peer reviewed by members of the Review Committee
