The Infinite Retina Irena Cronin, Robert Scoble, 2020-05-08 A compelling and insightful look at the future of Spatial Computing and how this cutting edge technology is changing the way we do business across seven primary industries and what it means for humanity as a whole Key Features Discover how Spatial Computing is changing the face of technology Get a roadmap for the disruptions caused by Spatial Computing and how it will affect seven major industries Gain insights about the past present and future of technology from the world's leading experts and innovators Book Description What is Spatial Computing and why is everyone from Tesla Apple and Facebook investing heavily in it In The Infinite Retina authors Irena Cronin and Robert Scoble attempt to answer that question by helping you understand where Spatial Computing an augmented reality where humans and machines can interact in a physical space came from where it's going and why it's so fundamentally different from the computers or mobile phones that came before They present seven visions of the future and

the industry verticals in which Spatial Computing has the most influence Transportation Technology Media and Telecommunications Manufacturing Retail Healthcare Finance and Education The book also shares insights about the past present and future from leading experts and other industry veterans and innovators including Sebastian Thrun Ken Bretnschneider and Hugo Swart They dive into what they think will happen in Spatial Computing in the near and medium term and also explore what it could mean for humanity in the long term The Infinite Retina then leaves it up to you to decide whether Spatial Computing is truly where the future of technology is heading or whether it's just an exciting but passing phase What you will learn Look back at historical paradigms that changed the face of technology Consider how Spatial Computing could be the new technology that changes our lives See how Virtual and Augmented Reality will change the way we do healthcare Learn how Spatial Computing technology will lead to fully automated transportation Think about how Spatial Computing will change the manufacturing industry Explore how finance and retail are going to be impacted through Spatial Computing devices Hear accounts from industry experts on what they expect Spatial Computing to bring to their sectors Who this book is for The Infinite Retina is for anyone interested in the future of technology and how Augmented Reality and Spatial Computing among other developments will affect both businesses and the individual Vietnam Economic News, 2021

Human Virtuality and Digital Life Richard Frankel, Victor J. Krebs, 2021-08-12 Winner of the Gradiva Best Book Award 2022 and the Courage to Dream Book Prize 2023 from the Academy of the American Psychoanalytic Association This book is a psychoanalytic and philosophical exploration of how the digital is transforming our perception of the world and our understanding of ourselves Drawing on examples from everyday life myth and popular culture this book argues that virtual reality is only the latest instantiation of the phenomenon of the virtual which is intrinsic to human being It illuminates what is at stake in our understanding of the relationship between the virtual and the real showing how our present technologies both enhance and diminish our psychological lives The authors claim that technology is a pharmakon at the same time both a remedy and a poison and in their writing exemplify a method that overcomes the polarization that compels us to regard it either as a liberating force or a dangerous threat in human life The digital revolution challenges us to reckon with the implications of what is being called our posthuman condition leaving behind our modern conception of the world as constituted by atemporal essences and reconceiving it instead as one of processes and change The book's postscript considers the sudden plunge into the virtual effected by the 2020 global pandemic Accessible and wide reaching this book will appeal not only to psychotherapists psychoanalysts and philosophers but anyone interested in the ways virtuality and the digital are transforming our contemporary lives
