EYESHADOW

The next step in eye makeup. Getting to know your eye shape (be deep-set, wide-set, close-set, round, prominent, downturned, a combination between those) is important to properly pick the right that way to enhance your natural beauty with a flawless eye!

THE BASIC EYESHADOW TECHNIQUE

Now, I'll cover a basic eyeshadow technique that I consider both works well for most eye shapes!

- 1 Start by applying an eye primer
- 2 Next, take a transition shade and apply it directly for your eye fully blending through your eye fully and outward from your inner corner until it is completely blended
- 3 After that, take a darker but still neutral shade like a taupe and with a more precise pencil brush, apply it on the outer 1/3 of the eyelid
- 4 Next, take a lighter/neutral shade and apply it to the inner 2/3 of the eye, blending the darker shade and the inner corner of the eye
- 5 To finish, highlight the brow bone and the inner corner of the eye with a light shade from the darkest shade area.

It's now up to you how far you want your eye to look. If desire for a darker look and build that darkness on the outer corner.

Only Transition

You can mix and match this basic technique with the range of color of your preference, and recreate the look with purple, blue or pink for example!

PREP THE SKIN BEFORE MAKEUP

It is essential to have a clean, hydrated, and glowing skin before applying any makeup. Here are some steps to follow:

1. Start with a gentle cleanser to remove any dirt or oil from your skin.

- Soap-free cleanser
- Toner
- Moisturizer
- Face Oil
- Sunscreen

Do you need to do every single step every time you do your makeup?

The short answer is no, you don't have to do every single step every time you do your makeup. You can skip some steps depending on your skin type and the products you are using.

For example, if you have dry skin, you might want to skip the toner and use a hydrating serum instead.

For oily skin, you might want to skip the face oil and use a mattifying powder instead.

And it works as a base for your makeup.

Sunscreen is an essential step that we don't want to skip, even during the winter season.

The only exception is when we are doing makeup for night events.

We don't want to use sunscreen because it can make our face look white or greasy when we use it.

The very next step, it's going to be primer. Make sure to use it primer according to your skin type.

EYEBROWS

How to do eyebrows depends on your natural eyebrow shape, but every face shape can't use a thicker eyebrow. Whether an Upward eyebrow but you can add a little downward arch to your eyebrows for a more eye-like shape that's for you.

What Eyebrow Shape is Best?

First look at your natural eyebrow shape, how straight they are, how thick or thin they are, and how they look when you are smiling or frowning.

The natural shape of your eyebrows is your natural shape. Don't try to create an artificial eyebrow effect.

What to avoid on eyebrows makeup?

- Very dark eyebrows
- Very thin brows
- Very defined eyebrows
- Round eyebrows
- Plucked

What to use for eyebrows makeup?

- Brow pencils and a very thin eyebrow brush
- Brow waxes for a plucked effect
- Colored eyebrow gel

Create little brow hairs in the areas where you may have holes. Blend it well, use it with brow gel, and clean the brow with concealer.

The right shade for you.

There is a straightforward trick to identify your skin tone very quickly.

Find the natural light of the sun, and look at your arm, looking for your veins.

All the veins in humans are blue, but the skin tones in them it will give the final look to what we can see on our skin.

If your veins are blue and your skin has a yellow-orange undertone, your veins will have to look greenish.

If you find your veins are purple and blue, you have a pink undertone. Also, blue and purple from the purple color.

If your veins are green and your skin has a yellow-orange undertone, your veins will have to look purple.

In general, the perfect foundation shade for you is a shade similar to your skin tone with the same undertone.

PRO TIP: Warm your foundation first with your fingers before applying it to your face to activate it and get better results on the skin.

CONCEALER

The key is to avoid to get more coverage, especially the dark under-eye area.

Use 1 or 2 drops of liquid concealer on covering the under-eye area and blend it out in your face that needs coverage.

Remember concealer and foundation are mixed up as they both are used to cover facial imperfections, but there are some key differences between the two.

- **Thickness:** Concealer is formulated to be thicker than foundation.
- **Blendability:** Concealer is designed to be easily blended into your skin, while foundation is designed to be applied over the skin.
- **High coverage:** Concealer is designed to provide high coverage to cover up dark spots and blemishes, while foundation is designed to provide a more even skin tone.
- **Color:** Concealer comes in a wider range of colors than foundation, allowing you to match your skin tone more precisely.

Concealer Shade

Concealer should be lighter than your foundation only if you are applying it to bring light to certain areas like under the eyes, chin, inside of your forehead, etc.

If you are trying to cover imperfections on the rest of the face, opt for a concealer in a similar shade to your foundation instead.

Concealer comes in different formulas such as cream-concealer, pencil concealer, and the most popular one liquid-concealer.
