**Visions of the Beyond, by a Seer of Today** Herman Snow,1877 José Donoso, the "boom" and Beyond Philip Swanson,1988 The work of Jos Donoso the renowned Chilean writer of fiction is surveyed in this volume which concentrates on his novelistic prodiction up to 1981 Philip Swanson analyses each novel in detail and plots the twin development of narrative technique and existential outlook He sets this development within its natural context of the boom the remarkable period of innovation initiated in the 1960s by South

American authors such as Cortázar, Fuentes, García Márquez and Vargas Llosa Swanson also analyzes the progressive breakdown in conventional structural patterns which stemmed from Donoso's own disintegration of faith in order and existential certainties. The climax of this process was his most successful novel *El obscuro pajarito de la noche* 1970. Donoso subsequently moderated such formal complexity in a transition towards resignation and acceptance. But this apparent counter reaction as Swanson argues is not merely a regression to simpler forms but disruptively subverts realism from within and points a new way forward after the exhaustion of the experimental explosion of the 1960s and 1970s.
