## **Paper Doraemon:**

*Transformation of Tradition and Culture* ???????? Miho Tsukamoto, 2018-02-07 The book *Transformation of Tradition and Culture* is a work of comparative literary research and culture investigation. The book studies world literatures from the USA, the DR Mexico, Spain, Portuguese and Japan. US cultures such as the Barbie doll, Mexican mural studies, Japanese subcultures, manga, anime, movies, and food culture, media study, and women in society. It is a book of an author's experiences, culture, and historical footsteps with people from all over the world. Sharing one's own culture with people from different cultural backgrounds is vital for everyone to learn about their own culture, languages, society, economy, politics, and customs.

Japanese Animation Masao Yokota, Tze-yue G. Hu, 2013-08-01 *Japanese Animation: East Asian Perspectives* makes available for the first time to English readership a selection of viewpoints from media practitioners, designers, educators, and scholars working in the East Asian Pacific. This collection not only engages a multidisciplinary approach in understanding the subject of Japanese animation but also shows ways to research, teach, and more fully explore this multidimensional world. Presented in six sections, the translated essays cross-reference each other. The collection adopts a wide range of critical, historical, practical, and experimental approaches. This variety provides a creative and fascinating edge for both specialist and nonspecialist readers. Contributors' works share a common relevance, interest, and involvement despite their regional considerations and the different modes of analysis demonstrated. They form a composite of teaching and research ideas on Japanese animation.

### **Teaching and Learning Language: Current Trends and Practices (Penerbit USM)**

Ambigapathy Pandian, Sunny Tan Siew Bek, Shaik Abdul Malik Mohamed Ismail, 2014 This book represents a collection of papers that relate to the challenges and problems posed by the ever-changing and diversified nature of today's classroom. The papers discuss and demonstrate methodologies and learning strategies and, in the process, recommend effective practices that are practical and open to adaptation for different teaching and learning contexts. They range from suggestions on how to exploit information technology resources to individual or specific case studies. These case studies report on a variety of contextual issues and problems that are specified to particular learning contexts. This book therefore not only offers examples of tried and tested teaching strategies but also offers useful insights into specific sociocultural problems that are experienced by learners as well as teachers and interested stakeholders in particular settings and countries. The papers offer a comprehensive documentation of past as well as present problems faced by teachers, policy makers, and students and discuss ways and strategies of overcoming such problems such that the teaching and learning process is not only enhanced but made more meaningful and fulfilling to both teachers and learners. The inherently global perspective of the papers in this book makes it an enriching compendium.
