Woken Furies:

Woken Furies Richard K. Morgan, 2005-09-27 Mixing classic noir sensibilities with a searing futuristic vision of an age when death is nearly meaningless Richard K Morgan returns to his saga of betrayal mystery and revenge as Takeshi Kovacs in one fatal moment joins forces with a mysterious woman who may have the power to shatter Harlan's World forever Once a gang member then a marine then a galaxy hopping Envoy trained to wreak slaughter and suppression across the stars a bleeding wounded Kovacs was chilling out in a New Hokkaido bar when some so called holy men descended on a slim beauty with tangled hyperwired hair An act of quixotic chivalry later and Kovacs was in deep mixed up with a woman with two names many powers and one explosive history In a world where the real and virtual are one and the same and the dead can come back to life the damsel in distress may be none other than the infamous Quellcrist Falconer the vaporized symbol of a freedom now gone from Harlan's World Kovacs can deal with the madness of AI He can do his part in a battle against biomachines gone wild search for a three centuries old missing weapons system and live with a blood feud with the yakuza and even with the betrayal of people he once trusted But when his relationship with the Falconer brings him an enemy specially designed to destroy him he knows it's time to be afraid After all the guy sent to kill him is himself but younger stronger and straight out of hell Wild provocative and riveting *Woken Furies* is a full bore science fiction spectacular of the highest order from one of the most original and spellbinding storytellers at work today *Takeshi Kovacs Collection* Richard Morgan, 2017-06-08

Woken Furies Richard Morgan, 2008-09-18 This is high action ideas driven noir SF of the highest order Morgan has already established himself as an SF author of global significance Takeshi Kovacs has come home Home to Harlan's World An ocean planet with only 5% of its landmass poking above the dangerous and unpredictable seas Try and get above the weather in anything more sophisticated than a helicopter and the Martian orbital platforms will burn you out of the sky And death doesn't just wait for you in the seas and the skies On land from the tropical beaches and swamps of Kossuth to the icy machine infested wastes of New Hokkaido the hard won gains of the Quellist revolution have been lost The First Families the corporations and the Yakuza have a stranglehold on everything Embarked on a journey of implacable retribution for a lost love Kovacs is blown off course and into a maelstrom of political intrigue and technological mystery as the ghosts of Harlan's World and his own violent past rise to claim their due Quellcrist Falconer is back from the dead they say and hunting her down for the First Families is a savage young Envoy called Kovacs who's been in storage *Masculinity in Contemporary Science Fiction by Men* Sara Martín, 2025-05-30 *Masculinity in Contemporary Science Fiction by Men* No Plans for the Future is the first comprehensive study of the self representation of men in SF novels published in the twenty first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic overview of men's contributions to current SF and explore their slow but noticeable progress in the representation of gender The impact of feminism and gender studies and the demands of readers have profoundly transformed men's SF which now

presents far more caring and vulnerable male characters The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti patriarchal pro feminist future for men and for all human beings The authors analysed include Robert Charles Wilson Geoff Ryman Samuel R Delany Richard K Morgan John Scalzi Iain M Banks Ernest Cline James S A Corey Colson Whitehead Andy Weir Daniel H Wilson Ian McDonald Yoon Ha Lee Tade Thompson Neal Stephenson and Kim Stanley Robinson Beyond Cyberpunk Graham J. Murphy, Sherryl Vint, 2010-06-10 This book is a collection of essays that considers the continuing cultural relevance of the cyberpunk genre into the new millennium Cyberpunk is no longer an emergent phenomenon but in our digital age of CGI driven entertainment the information economy and globalized capital we have never more been in need of a fiction capable of engaging with a world shaped by information technology The essays explore our cyberpunk realities to soberly reconsider Eighties era cyberpunk while also mapping contemporary cyberpunk The contributors seek to move beyond the narrow strictures of cyberpunk as defined in the Eighties and contribute to an ongoing discussion of how to negotiate exchanges among information technologies global capitalism and human social existence The essays offer a variety of perspectives on cyberpunk's diversity and how this sub genre remains relevant amidst its transformation from a print fiction genre into a more generalized set of cultural practices tackling the question of what it is that cyberpunk narratives continue to offer us in those intersections of literary cultural theoretical academic and technocultural environments **The Chains That You Refuse** Elizabeth Bear, 2006-05-01 What Bear has done is create a world that is all too plausible one wracked by environmental devastation and political chaos she conducts a tour of this society's darker corners offering an unnerving peek into a future humankind would be wise to avoid Science Fiction Weekly From Elizabeth Bear 2005 John W Campbell Best New Writer Award winner and author of the critically acclaimed and wildly popular Jenny Casey Trilogy Hammered Scardown and Worldwired comes The Chains That You Refuse a collection of dazzling short fiction featuring twenty one genre bending stories and one poem including the exhilarating and previously uncollected Jenny Casey origin story Gone to Flowers These scintillating and surprising tales many never before collected or published are drawn from inspirations as varied as Norse legends Lovecraftian horrors and the American murder ballad Stagger Lee and showcase Elizabeth Bear's remarkable and imaginative storytelling talents Whether set in a distant mythic kingdom in modern day Las Vegas or in the far future sunken city of New Orleans Bear's enthusiastic narratives blur the lines between traditional speculative fiction fantasy horror and fable with unflinching grace and wide eyed wonder Whether you are already a fan of Elizabeth Bear or not The Chains That You Refuse demonstrates beyond a doubt why David Brin called Elizabeth Bear a talent to watch **Cinefantastique**, 2005 **The Year's Best Science Fiction: Twenty-Third Annual Collection** Gardner Dozois, 2006 Annual collection of outstanding science fiction stories showcasing the highest levels of creativity and craft in the genre Library Journal
