Dear Ms. Smith,

As an Operations Manager with 10+ years of experience fostering robust relationships with key stakeholders and colleagues, I was thrilled to see your job posting on [Indeed.com](https://www.indeed.com) for an Operations Manager at Amazon. With my experience supervising and motivating staff, delivering measurable results, and achieving organizational goals, I believe I'd be a great asset to the Amazon team.

While working as an Operations Manager at Costco, I managed a team of 20 managers and 200+ co-workers by delegating duties, streamlining operations, and setting attainable KPIs. In addition, I effectively oversaw the recruitment and training of 400+ new hires and handled their appraisals.

In my last position, I incorporated a custom-designed order fulfillment program that generated \$3M in additional revenue. Furthermore, I cut merchandise loss by 25% by introducing innovative theft prevention protocols. I'm confident that my excellent leadership skills and proven ability to help companies reach their goals can benefit Amazon.

I've attached my resume which goes over my professional experience and educational background in detail. Thank you for your time. I'd be happy to discuss my qualifications with you if you have any questions, so please don't hesitate to reach out.

Sincerely,

Aubrey Russo

The Unaccountable State of Surveillance Clive Norris, Paul de Hert, Xavier L'Hoiry, Antonella Galetta, 2017-01-24 This book examines the ability of citizens across ten European countries to exercise their democratic rights to access their personal data It presents a socio legal research project with the researchers acting as citizens or data subjects and using ethnographic data collection methods The research presented here evidences a myriad of strategies and discourses employed by a range of public and private sector organizations as they obstruct and restrict citizens' attempts to exercise their informational rights The book also provides an up to date legal analysis of legal frameworks across Europe concerning access rights and makes several policy recommendations in the area of informational rights It provides a unique and unparalleled study of the law in action which uncovered the obstacles that citizens encounter if they try to find out what personal data public and private sector organisations collect and store about them how they process it and with whom they share it These are simple questions to ask and the right to do so is enshrined in law but getting answers to these questions was met by a raft of strategies which effectively denied citizens their rights The book documents in rich ethnographic detail the manner in which these discourses

of denial played out in the ten countries involved and explores in depth the implications for policy and regulatory reform
