

DIALECTICAL JOURNAL GUIDELINES

The term "Dialectic" means "the art or practice of arriving at the truth by using conversation involving question and answer." Think of your dialectical journal as a series of conversations with your book as you read it. This process is meant to help you develop a better understanding of the novel as we read. Use your journal to record your personal responses to the texts, your ideas about the themes we cover and our class discussions. You will find that it is a useful way to process what you're reading and to better understand the book's content.

PROCEDURE:

- o As you read, choose passages that stand out to you and record them in the left-hand column of the t-chart provided.
- o In the right column, write your response to the text (ideas/insights, questions, reflections, and comments on each passage)
- o After each comment you write, label your responses using the following codes:
 - o **(Q) Question** – ask about something in the passage that is unclear
 - o **(C) Connect** – make a connection to your life, the world, or another text
 - o **(P) Predict** – anticipate what will occur based on what's in the passage
 - o **(CL) Clarify** – answer earlier questions or confirm/disaffirm a prediction
 - o **(R) Reflect** – think deeply about what the passage means in a broad sense – not just to the characters in the story. What conclusions can you draw about the world, about human nature, or just the way things work?
 - o **(E) Evaluate** - make a judgment about the character(s), their actions, or what the author is trying to say
- o Complete journal entries for at least **two passages** per chapter.
- o On the next page you will see examples of higher level responses. [expect that at least half of your responses will be at this level.]

The case studies in this rich resource analyze various differentiation strategies and their benefits to promote classrooms where every student belongs, every student is valued, and every student is nurtured. The cases facilitate conversations about children and their unique needs by situating learning in authentic and meaningful contexts with the goal of helping educators improve services and programs for gifted and talented students. Things to Consider guide the reader's thinking without imparting an explicit action recommendation or solution.
