New Money Lana Swartz, 2020-08-18. A new vision of money as a communication technology that creates and sustains invisible, often exclusive communities. In an engaging and timely work brimming with fascinating anecdotes and historical and literary references, Lana Swartz brilliantly illustrates how financial technologies are quietly transforming how we socialize and what it means to belong. Jonathan Zittrain, author of *The Future of the Internet And How to Stop It*. One of the basic structures of everyday life, money is at its core a communication media. Payment systems, cash, card, app, or Bitcoin are informational and symbolic tools that integrate us into or exclude us from the society that surrounds us. Examining the social politics of financial technologies, Lana Swartz reveals what's at stake when we pay. This accessible and insightful analysis comes at a moment of disruption, from fintech startups to cryptocurrencies. A variety of technologies are poised to unseat traditional financial infrastructures. Swartz explains these changes, traces their longer histories, and demonstrates their consequences. She shows just how important these invisible systems are. Getting paid and paying determines whether or not you can put food on the table. The data that payment produces is uniquely revelatory and newly valuable. New forms of money create new forms of identity, new forms of community, and new forms of power.

Your Customer Rules! Bill Price, David Jaffe, 2014-11-13. What you need to know about your customers. Now more than ever, every interaction you have with customers is critical. Customers today have unlimited information at their fingertips and can influence the purchase decisions and behaviors of millions of others. With this comes a shift in the balance of power, and every company must come to terms with the fact that the customer is in control. Interacting with customers in the way they want is an essential business strategy, and in many industries, the key to business success. Executives still refer to B2B and B2C business models as though companies control demand by going to customers with products and services. But as Bill Price and David Jaffe, authors of *The Best Service is No Service*, show, a new business model is emerging in which the customer directs the relationship. It is becoming a world of Me2B, one in which the customer, not the business, dictates the terms of engagement. In order for your business to thrive, you must create positive experiences to fulfill a range of customer needs. Though the mediums for customer engagement continuously evolve, Price and Jaffe show that customer needs remain unchanging. In *Your Customer Rules*, they define a critical hierarchy of seven needs that your company can meet and apply as a methodology. Throughout this practical guidebook, Price and Jaffe share examples

of companies who succeed by meeting these seven needs including Amazon Apple IKEA Nordstrom USAA Shoes of Prey Vente Privee and Yamato Transport as well as those that didn't Your Customer Rules offers tailored advice for companies at every stage from nimble startups to legacy firms with established customer service practices and everyone in between With a simple elegant solution for driving lasting value for customers Your Customer Rules is a clear guide for strengthening customer relationships and competing on more than price It is essential reading for executives at all levels business owners marketing managers and anyone who works directly with customers
