

Command words (Science)

Command words are the words and phrases used in exams that tell students how they should answer a question.

The following command words are taken from Ofqual's official list of command words and their meanings that are relevant to this subject. In addition, where necessary, we have included our own command words and their meanings to complement Ofqual's list.

Command words marked * are new for teaching from 2016.

Calculate

Students should use numbers given in the question to work out the answer.

Choose*

Select from a range of alternatives.

Compare

This requires the student to describe the similarities and/or differences between things, not just write about one.

Complete

Answers should be written in the space provided, for example on a diagram, in spaces in a sentence, or in a table.

Define*

Specify the meaning of something.

Describe

Students may be asked to recall some facts, events or process in an accurate way.

Design*

Set out how something will be done.

Determine*

Use given data or information to obtain an answer.

Draw

To produce, or add to, a diagram.

Estimate

Assign an approximate value.

Command Words Science Aqa

Primrose Kitten

A decorative graphic element consisting of a light blue horizontal bar with a rounded right end, and a red circular glow behind it.

Command Words Science Aqa:

Secondary Science in Action Emily Clark Giubertoni, Richard Giubertoni, 2024-09-13 There is nothing more exciting in science teaching than transforming students into effective enthusiastic biologists chemists and physicists To this end this book spells out the skills and strategies of the successful science teacher in action Drawing on years of teaching experience Richard and Emily Giubertoni set out top tips for effective practice in all areas of a science teacher s role from curriculum planning to managing practicals from powerful hinterland stories to how to approach controversial topics The useful approaches set out in this book will have value for science teachers at all stages of their careers from trainee teachers to department leaders Being an effective teacher is not innate we can all learn to teach to teach well and to teach better In this thoroughly comprehensive overview of science teaching in action all science teachers will find ideas to strengthen inspire and further develop their teaching practice in a practical and pragmatic book that is enjoyable and engaging to read
