Technologies in Biomedical and Life Sciences Education Harry J. Witchel,Michael W. Lee,2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come *The Effect of Information*

Coggins, 2004 A history of the College of Community Health Sciences at The University of Alabama Employs first hand accounts from college founders and early leaders to

chronicle the institution's birth during the early 1970s its developing relationships with The University of Alabama School of Medicine in Birmingham and DCH Medical Center in Tuscaloosa and the growth of its facilities and programs including the Capstone Medical Center and the family practice residency program Family medicine had been the common practice before World War II but the trend toward specialization in the years afterward created a shortage of general practitioners within the state especially in small urban and rural communities The founding of the CCHS in 1972 helped to remedy this situation and the college continues today as a vital service to the state of Alabama *Forthcoming Books* Rose Army,2003-12 Essential OSCE Topics for Medical and Surgical Finals Kaji Sritharan,Vivian A. Elwell,2008 Objective Structured Clinical Examinations OSCEs are commonly encountered at all levels of medical school including the final MBBS examination OSCEs also play an important role at postgraduate level and are used to assess competency in the Foundation Years One of the fundamental requirements of passing the OSCE is an understanding of the standard which is expected and an appreciation of how to demonstrate this This book discusses 170 commonly encountered OSCE scenarios with a step by step approach to maximise your chances of success in the examination The scenarios are presented with sufficient background information to enable candidates to tackle variations This comprehensive book covering both surgery and medicine overcomes any problems of a tick box approach and insufficient detail faced by some alternative texts The clear straight forward style and logical layout make this book perfect preparation for OSCE examinations
