Gray Work Jamie Smith,2015-04-07 The first ever first person story of America s private paramilitary contractors at work around the world from a man who performed these missions himself and has decades of stories to tell This is a fascinating tale and potentially the first to describe the work of American contractors men who run highly dangerous missions deep inside foreign countries on the brink of war It will lift the

veil and detail the ultimate danger and risk of paramilitary operations both officially government sanctioned and not and show us in very intimate terms exactly what private soldiers do when the government can't act or take public responsibility GRAY WORK combines covert military intelligence with boots on the ground realism following Jamie Smith through his CIA training and work as a spy in the State Department to his co-founding of Blackwater following 9/11 to his decision to leave that company As the founder and director of Blackwater Security Smith's initial vision has undeniably shaped and transformed a decade of war He argues that this gray area and its warriors who occupy the controversial space between public and private has become an indispensable element of the modern battlefield *The Economist*, 2010 *A Guide to Effective Political Communication in Ghana*, 1996 **PC World**, 2009 *Library History Round Table Newsletter*, 2009
