The Field Guide to Mixing Social and Biophysical Methods in Environmental Research Rebecca Lave, Stuart Lane, 2025-02-25 Despite ongoing debates about its origins the Anthropocene a new epoch characterized by significant human impact on the Earth's geology and ecosystems is widely acknowledged Our environment is increasingly a product of interacting biophysical and social forces shaped by climate change colonial legacies gender norms hydrological processes and more Understanding these intricate interactions requires a mixed methods approach that combines qualitative and quantitative biophysical and social research However mixed methods environmental research remains rare hindered by academic boundaries limited training and the challenges of interdisciplinary collaboration Time funding and the integration of diverse data further complicate this research whilst the dynamics and ethics of interdisciplinary teams add another layer of complexity Despite these challenges mixed methods research offers a more robust and ultimately transformative understanding of environmental questions This Field Guide aims to inspire and equip researchers to undertake such studies Organized like a recipe book it assists researchers in the preparation of their field work as well as offering entry points to key methods and providing examples of successful mixed methods projects This book will be of interest to scholars wishing to tackle environmental research in a more holistic manner spanning sister disciplines such as anthropology statistics political science public health archaeology geography history ecology and Earth science

*Research Methods in Remote Sensing* Basudeb Bhatta, 2013-04-15 This

book introduces the overall concepts of research methods in Remote Sensing It also addresses the entire research framework ranging from ontology to documentation As such it covers the theory while providing a solid basis for engaging in concrete research activities It is not intended as a textbook on remote sensing rather it offers guidance to those conducting research by examining philosophical and other issues that are generally not covered by textbooks Various stages of research are discussed in detail including illustrative discussions and helpful references The topics considered in this book cover a part of the research methodologies explored in Master of Philosophy M Phil and Doctor of Philosophy Ph D programs The book's physical format has been kept to a compact handy minimum in order to maximize its accessibility and readability for a broad range of researchers in the field of remote sensing

**Literary Theory and Criticism** Arun Gupto,2021-08-30 The book explores key South Asian writings on cultural theory and literary criticism It discusses the dynamics of textual contents rhetorical styles and socio political issues through an exploration of seminal South Asian scholarship in the Humanities and Social Sciences The volume examines concepts and methods of critical studies It also discusses colonial and postcolonial discourses on art religion nationalism identity representation resistance and gender in the South Asian context The essays are accompanied by textual questions and intertextual discussions on rhetorical creative and critical aspects of the selected texts The exercise questions invite the reader to explore the mechanics of reading about and writing on discursive pieces in South Asian studies Comprehensive and interdisciplinary this textbook will be indispensable for students and researchers of South Asian studies cultural theory literary criticism postcolonial studies literary and language studies women and gender studies rhetoric and composition political sociology and cultural studies

**The Routledge Handbook of Urban Design Research Methods** Hesam Kamalipour,Patricia Aelbrecht,Nastaran Peimani,2023-08-24 As an evolving and contested field urban design has been made unmade and remade at the intersections of multiple disciplines and professions It is now a decisive moment for urban design to reflect on its rigour and relevance This handbook is an attempt to seize this moment for urban design to further develop its theoretical and methodological knowledge base and engage with the question of what urban design can be with a primary focus on its research This handbook includes contributions from both established and emerging scholars across the global North and global South to provide a more field specific entry point by introducing a range of topics and lines of inquiry and discussing how they can be explored with a focus on the related research designs and methods The specific aim scope and structure of this handbook are appealing to a range of audiences interested and or involved in shaping places and public spaces What makes this book quite distinctive from conventional handbooks on research methods is the way it has been structured in relation to some key research topics and questions in the field of urban design regarding the issues of agency affordance place informality and performance In addition to the introduction chapter this handbook includes 80 contributors and 52 chapters organised into five parts The commissioned chapters showcase a wide range of topics research designs and methods with references to relevant scholarly works on the related topics and

methods *Exploring New Methods for Teaching and Learning Human Geography* Chao Ye, 2024-07-30 This book proposes a new and central teaching concept we are all makers and innovates the geographical teaching modes and methodology Geography teaching especially how to teach geographical thinking is important and related to the development of the discipline In this field the exploration of new teaching methods in non English speaking countries and regions still needs to grow Based on the author s experience of teaching geographical thinking and human cultural geography for more than ten years the book links geographical thinking to the realistic cases with new social media tools such as WeChat APP and blog Under the guidance of these new methods such as poem emotional couplet game keywords blog based teaching and the like students are transformed from passive recipients of knowledge to active learners and even creators in the end The book which focuses on and pioneers new teaching methodology or methods is used as a reference by scholars researchers practitioners and readers specialized in fields such as geography education and pedagogy
