Receivables and Collections Automation with SAP FSCM Sreedhar Narahari, 2010-07-01 Teaches how to design, configure and implement the FSCM Collections, Dispute, Credit and Biller Direct components. Provides proven guidance and real case studies for extending an ERP Financials infrastructure with FSCM. Includes coverage of advanced topics including extensions, reporting with NetWeaver BI and workflow design. The book provides you with a complete, detailed overview of each of the four major components in the SAP Financial Supply Chain Management: receivables and collections management application. You'll learn how to implement and use the Credit Management, Dispute Management, Biller Direct and Collections Management subcomponents, as well as best practices for integrating them with other SAP ERP applications and with SAP ERP Financials. In addition to the coverage of the four major components, the book also features chapters on integrating FSCM with ERP Financials and NetWeaver BW BI reporting architecture and customizing the implementation or upgrade with available extensions. You'll learn the best practices and configuration steps necessary for seamless implementation and integration of FSCM into an existing ERP Financials architecture and SAP infrastructure. Whether you are an experienced SAP professional working with SAP Financial Supply Chain Management for the first time, a new user trying to learn the ropes and implement the processes, or an implementation or project management professional looking to optimize the SAP Financial Supply Chain Management integration with SAP ERP Financials and other applications, this resource will help you make the most of your efforts.

SAP Fico Barkat ALI, 2017-03-10 This is a practical how-to-do book which guides you to become an expert in End User Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules help amplify functionality and features through application of customizing the system to meet accounting, financial planning and reporting needs in an organization. This book takes you through a step-by-step guide on Implementation of SAP FICO module with precise conceptual explanation and Guided Screenshots. Once the steps in implementation are finished, it is necessary to ensure that all the activities are performed in accordance. As such, the book provides a guided step-by-step approach to verify the same, which we call it as SAP FICO Audit Process. The Post Implementation or SAP FICO Audit comprises of a widespread listing of important business process perils along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives. Finally, a set of step-by-step functions performed by End User exercise are provided for practice. The book is unique in the sense that it deals with all three types of training needed for a SAP FICO Professional. Without having a clear idea of Settings in FICO other Modules, Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is

performed and the key tables in SAP associated with each step What you will learn 1 The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics 2 Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman s Language 3 Provides you with a virtual firm s SAP R 3 FICO Step by Step Full Implementation Guide 4 Most of the Materials do not help you in implementation in a sequential method This book carries you with a sequential step such as in a particular order 5 The Book also helps you to practice exercise at end of almost every sessions6 Most of the tutorials that exist in online do not explain the concepts 7 It guides you with End User Training in FICO POST IMPLEMENTATION SAMPLE Control ObjectiveCompany codes employed in the system should be set to productiveControl DescriptionIn case of post go live actions there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system In a normal SAP recommends the functioning company codes should be marked as productive as soon as the implementation happens This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes comprising data deletion in the production server RiskHere the risk is mistaken deletion of master transactional data which will unfavorably influence the system reliability Test StepsHere we check the global company code configuration to confirm if the appropriate company codes are marked as Productive For This Follow Step15 1 1 We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15 1 2
