

# 7 WAYS TO STAY SAFE ON CYBER MONDAY

Last year, 300,000 Americans were victims of online fraud – and it cost them a total of \$52 million. The FBI logged more than 2,000 complaints a day. Not surprisingly, much of this fraud happened around the holidays. Here's how to protect yourself...

- 1. Shop secure sites.**  
You can tell by the little lock symbol in the top left corner of your browser bar, and by the URL, which starts with HTTPS instead of just HTTP.
- 2. Shop sites you know and others trust.**  
If you haven't shopped safely at that site before, search for reviews about it. If those are negative, shop elsewhere.
- 3. Don't use a search engine.**  
Search retailers' sites, because sophisticated scammers try to add deceptive or even malicious links to your search results.
- 4. Use a secure connection.**  
Even if you do all this, your personal data is at risk if you shop using the Wi-Fi network at your favorite coffeehouse. So shop online from home.

- 5. Don't use debit cards.**  
If you do get scammed or hacked, credit cards offer a lot of fraud protection. Debit cards offer almost none.
- 6. Don't reuse passwords.**  
The best deals often require you register with the retailer. If you can get by as a "guest," do it. But if you must create a password, make it new and don't repeat it elsewhere.
- 7. Review your credit card statements.**  
You should be doing this year-round, but it's especially important during the holidays.

Cashman, Harry J. Rosenblatt, 2002-08 This title allows students to do systems analysis and design right from the start. Examples and cases are drawn from actual systems projects that enable students to learn in the context of solving problems much like the ones they will encounter on the job. A blend of traditional development and current techniques such as client server and object oriented development, graphical user interfaces and electronic data interchange are provided. The clear writing style makes systems analysis and design easy to understand and the Student Study Tools provides the reinforcement needed.

**Perspectives on Marketing** Jason I. Miletsky, Michael Hand, 2009 Marketing is not an exact science and marketing issues are often interpreted, defined and approached differently by different people, creating the potential for a disconnect in communication. This is particularly true of the client agency relationship which oftentimes looks at a single marketing issue in radically different ways. Perspectives on Marketing is a unique spin on the he said she said format, giving both the agency side (Jason Miletsky, CEO PFS Marketwyse) and the client side (Mike Hand, Director of Sports Marketing Hershey's) a number of topics that deal with marketing and the client agency relationship. It examines over 100 compelling and important marketing issues that marketers deal with on a regular basis, such as how to best measure ROI, how to determine the best means for reaching an audience and how to craft the most effective message. Each topic is approached from both points of view in a conversational point counter point style. This unique approach provides a frank, insightful and enjoyable look into the whole of the marketing process and helps promote understanding between the marketer and the client.
