Mushroom News, 2018 **Pretty Unhealthy** Nikki Stamp, 2019-09-03

A heart surgeon and TV star investigates why our health is declining despite our obsession with fitness and the image of health. How have we messed up our relationship with food and exercise so badly? Despite an explosion in the number of gyms, health foods, and activewear, we are more obese, less active, more stressed than ever before. We obsess over looking healthy, but our health is getting worse. Why did we start equating beauty with health? And is it possible to be fit and fat? Equipped with Instagram accounts and blogs, online wellness experts lead an army of followers towards what is labelled health, but might actually be far from it. We photograph ourselves and our food, but aren't sure whether we like the images until someone else likes them first. It seems all this health and wellness is making us unhappy, poor, and pretty unhealthy instead.

Heart surgeon and health commentator Dr. Nikki Stamp unpicks the web of online pseudoscience and urges us to take back our health from the people who don't value it as much as we do. She explores the secret of long-term motivation for healthy diet and exercise and shares the scientific value of self-kindness for true physical and mental health.
