Brown Savors and Their Others Arjun Shankar,2022-06-30 In *Brown Savors and Their Others* Arjun Shankar draws from his ethnographic work with an educational NGO to investigate the practices of brown savors globally mobile dominant caste liberal Indian and Indian diasporic technocrats who drive India s help economy Shankar argues that these brown savors actually reproduce many of the racialized values and ideologies associated with who and how to help that have been passed down from the colonial period while masking other operations of power behind the racial politics of global brownness In India these operations of power center largely on the transnational labor politics of caste Ever attentive to moments of discomfort and complicity Shankar develops a method of nervous ethnography to uncover the global racial

hierarchies graded caste stratifications urban rural distinctions and digital panaceas that shape the politics of help in India Through nervous critique Shankar introduces a framework for the study of the global help economies that reckons with the ongoing legacies of racial and caste capitalism
