over the country belonging to academic institutes and industry presented their research ideas on the 4C's. These research works ranged from digital transformation, IOT, team dynamics and organisation culture to infrastructural issues, e-commerce, banking and corporate governance. The research works presented covered a plethora of policy issues where each one of them is the need of the hour. The deliberations from renowned academicians who came from different parts of the world along with top industrialist, bureaucrats, entrepreneurs, NGOs immensely contributed to the existing bodies of work. They emphasized on the importance of right policies to promote communication, connectivity, facilitating commerce and preserving culture among societies. Overall, the conference witnessed a brainstorming session with scholars and experts and it surely did pave the way for future research.

Just Enough Wireless Computing Ian S. Hayes, 2003. Wireless technology offers immense potential for competitive advantage starting right now, but today's wireless landscape can be extraordinarily confusing. This book gives decision makers the clarity, insight, and practical methodology they need to identify the right wireless solutions and implement them. Ian S. Hayes offers a practical framework for understanding today's complex array of wireless devices, solution providers, technologies, standards, architectures, and acronyms. Through real-world case studies, practical examples, and illustrations, he helps you determine which wireless solutions offer the greatest business value in your environment and walks you through assembling and integrating those solutions. The book contains a detailed glossary of terminology as well as a comprehensive list of software vendors and consultants, updated on an ongoing basis at the book's companion Web site.
