EBK: Services Marketing: Integrating Customer Service Across the Firm 4e Alan Wilson, Valarie Zeithaml, Mary Jo Bitner, Dwayne Gremler, 2020-10-07 Successful businesses recognize that the development of strong customer relationships through quality service and services as well as implementing service strategies for competitive advantage are key to their success. In its fourth European edition, *Services Marketing: Integrating Customer Focus across the Firm* provides full coverage of the foundations of services marketing, placing the distinctive Gaps model at the center of this approach. The new edition draws on the most recent research and uses up-to-date and topical examples; the book focuses on the development of customer relationships through service, outlining the core concepts and theories in services marketing today. New and updated material in this new edition includes new content related to human resource strategies, including coverage of the role of robots and chatbots for delivering customer-focused services. New coverage on listening to customers through research, big data, netnography, and monitoring user-generated content. Increased technology, social media, and digital coverage throughout the text, including the delivery of services using mobile and digital platforms as well as through the Internet of Things. Brand new examples and case studies added from global and innovative companies, including Turkish Airlines, Volvo EasyJet, and McDonald's. Available with McGraw-Hill's Connect, the well-established online learning platform which features our award-winning adaptive reading experience as well as resources to help faculty and institutions improve student outcomes and course delivery efficiency.

Live Nation Hegemony: The Ruthless Consolidation of Concert Ticketing Deandre H. Thomas, Buying a concert ticket today feels less like a transaction and more like a shakedown. Fans endure digital queues, dynamic pricing that adjusts to demand in real time, and exorbitant service fees that can double the cost of entry. This infuriating experience is entirely by design, engineered by the absolute monopolistic control of the Live Nation and Ticketmaster merger. By controlling not only the ticketing software but also the physical venues, the artist management, and the promotional infrastructure, this corporate behemoth has eliminated any meaningful competition. If an independent venue refuses to use their ticketing system, they simply route the world's biggest pop stars to a compliant competitor. This vertical integration allows them to artificially inflate prices, blame scalpers for shortages, and extract massive rents from both artists and fans. The resulting cartel has stifled innovation and turned the joy of live music into an exclusive luxury product operating with total impunity against antitrust legislation. This deep dive exposes the predatory legal contracts and dark algorithms that dictate the live event economy. Readers will learn the precise economic mechanics of how a single corporation cornered the multi-billion-dollar experience market. *BISAC BUSINESS ECONOMICS Industries Entertainment BUSINESS ECONOMICS Monopolies Antitrust* amazon keywords ticketmaster monopoly live nation economics music industry business short excerpt How a single corporate entity swallowed venues, artists, and software to build an inescapable monopoly over the live music industry.
