of child study by Louis N Wilson **Debates in Primary Education** Virginia Bower,2020-10-19 This powerful text
encourages both pre service and established teachers as well as teacher educators to engage with contemporary debates in
primary education Promoting a critical approach the chapters explore a wide range of key themes including the importance
of values in primary education and the imperative for a curriculum which embraces the whole range of available subjects At
the same time the chapters are underpinned by a belief that children should be at the heart of all the decisions we make and
that primary education should inspire a love of learning for life The book aims to support practitioners to make informed
judgements and feel confident to argue their point of view with deeper theoretical knowledge and understanding thus
increasing teacher agency and confidence in responding to complex educational and social dilemmas such as literacy levels
and rising mental health concerns Chapters encompass both the macro aspects of primary education and more specialised
debates on key topics such as reading mathematics languages early years education and the use of technology With
annotated further reading and reflective questions this key text is essential reading for all those wanting to develop a better
understanding of the issues that shape their practice including student teachers at both undergraduate and postgraduate
level practising teachers engaged in continuing professional development and teacher educators
