Copywriting In A Week Rob Ashton, Robert Ashton, 2012-03-30

Great copywriting just got easier. It's strange to think that there was a time when only the privileged few could read or write. The rest of us relied on the spoken word. Storytelling was used to pass knowledge on from one generation to the next. Now most of us are literate and use the written word to gather information and inform our decision-making. Increasingly, we do this online with social media and messaging, enabling rapid, spontaneous global communication. But rather than freeing us from the need for clear, effective written communication, it actually makes good communication even more important. The less we communicate face-to-face, the greater the opportunity for misunderstandings. Of course, all writing communicates your message to people you cannot see and may never meet. It means you can influence more widely; it also means you must take care not to make assumptions about your reader, especially those who see your public postings. Successful copywriting is constructed from carefully selected words, each with a clear purpose. It is written to prompt feelings, thoughts, or actions. It is clear, concise, and at times comforting. It is also comprehensible, even to those not yet confident users of your language. Reading this book and following the techniques it introduces will make you

a more effective writer Expertise in grammar is not needed as all the necessary jargon is simply defined and anyway some forms of business writing deliberately ignore rules This book is for people who want to write for results Each of the seven chapters in Copywriting In A Week covers a different aspect Sunday Focusing your message Monday Using layout pictures and colour to make words memorable Tuesday Writing effective letters Wednesday Making advertising work for you Thursday Communicating clearly with the media Friday Preparing promotional print Saturday Composing proposals and presentation visuals
