After-Development Dynamics Anthony P. D'Costa,2015-07-30 The South Korean economic development trajectory has been widely studied and is well understood From an impoverished war torn nation the country has progressed on all fronts including a ten fold increase in per capita income over a 40 year period It stands out internationally when it comes to education and politically it has moved away from authoritarianism to a more spirited democratic system In short it seems to have achieved it all The question then is what does a country do after it has attained development This volume examines Korea s strategic engagement with Asia as a response to the limits of the home market Access to new markets and resources in Asia through exports and foreign investment are critical Additionally with Korea s ongoing demographic crisis its engagement with foreign workers is also inevitable *After Development Dynamics* explores how Korea is responding through regional integration strategic industrial upgrading of exports foreign markets and resources and coping with migrants including unskilled workers students and professionals The transfer of Korean business and employment practices through investment to other countries and accommodating foreigners is not trouble free Further prosperity imposes demands for increased social welfare while the workings of contemporary global capitalism introduce new sources of inequality Sharing that prosperity with small firms irregular workers and women becomes critical This volume presents the key internal challenges facing Korean society and suggests multiple ways to address them as a related response to Korea s after development prosperity **PRICM-5** Xiang Yu Zhong,Hiroyasu Saka,T.H. The POSCO Strategy William Thomas Hogan,2001-01-01 The POSCO Strategy brings to life one of the world s great

industrial success stories Expertly told by William T Hogan an accomplished commentator on the global steel industry the work traces the meteoric rise of South Korea s Pohang Iron and Steel Company and the incredible impact it has had on this small agrarian country In a mere quarter of a century POSCO has grown to become the largest steel company in the world and has dragged South Korea into the industrial age The book not only provides a blueprint for the world s steel industry but offers an incredible case study to students of modern Asian economic history seeking to understand how a non industrialized economy can be so dramatically modernized by the development of a single industry

Integrating China Peter Nolan,2008 In this highly relevant collection Peter Nolan argues that every effort of policy has to be directed towards avoiding this potentially catastrophic outcome In their search for a way forward China s leaders are looking to the lessons from the country s own past as well as to those from other countries in order to find a way to build a stable cohesive and prosperous society This effort is of vital importance not only for China but also for the whole world
