**The implications of cuts to the BBC World Service** Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2011-04-13 The Foreign Affairs Committee believes the BBC World Service is of such value to the nation that its income should be ring fenced against spending cuts The Service has suffered a disproportionate reduction in its future Grant in Aid under the spending review settlement by comparison with that of the core FCO allowing for inflation 16% as against 10% across the four years 2010 11 to 2014 15 High level discussions between the Government and the BBC about a transfer of funding responsibility started only nine days before the formal announcement of the change The report says that the decision to reduce World Service spending by 16% during the 2010 spending review period should be reversed and resources made available for it to continue its operations at roughly the 2010 11 level of staffing and output If the Service s funding is reduced in spite of this recommendation the committee urges for damage limitation with an unreduced BBC Hindi and BBC China Mandarin shortwave service and enhanced resources to BBC Arabic as required by the recent and continuing political developments in the region Some of the activity of the World Service contributes to the wider aims of the Department for International Development and a transfer of just 0 35% of DFID s resource budget over the next three years would compensate for the proposed 16% reduction in World Service funding There is no reason why such a transfer should not be made if the political will to carry it out is present
