Abstract

This article aims to reveal the existence of State madrasahs in Medan City as one of the Subsystems in the national Education System, the main focus is on the challenges of State Madrasahs to the global world. The research method used is a Qualitative Research Method using a Literature approach combined with field data, as for the source of information obtained through the Ministry of Religious Affairs of the City Medan by referring to EMIS data in 2021. The results showed that the State Madrasah in Medan City consisted of Ibtidaiyah Madrasah, Tsanawiyah Madrasah, and Aliyah Madrasah. The number of Public and Private Madrasahs in Medan City is not balanced, so many people are not accommodated to enter the State Madrasah. Related to global challenges, the State Madrasah in Medan City depends on the political will and policies of the Central Government, especially the Ministry of Religious Affairs of the Republic of Indonesia. More specifically, the challenge faced is that strategic efforts are needed to improve the ability of teachers to be more professional in the learning process.
